STAFF *Editor:* JARROD W. WILCOX '65; *Editorial staff:* FRED P. ANDERSON '65, HARRY S. COHEN '66, and MORTON J. COWAN '66; *Finance:* TERRY J. VAN DER WERFF '66; *Art:* JAMES B. BAYLEY '66.

PUBLISHED by the Technology Community Association, Walker Memorial, M.I.T., with the cooperation of the M.I.T. Office of Publications.

TO THE CLASS OF 1967

We welcome you to the M.I.T. community and to a new world, a new life as a part of one of the greatest educational institutions in the world.

But the purpose of this book is not to acquaint you with the academic life; rather it is to provide you with an introduction to an equally important aspect of college life. You have no doubt heard the term "whole man," a term which describes the development of the individual—not only by books, but also by the many other facets of college living. To help you realize an increased opportunity for this development is one of the main purposes of this handbook. M.I.T. has much to offer of activities, athletics, and social opportunities; and it is here that we hope *The Social Beaver* will be of aid. In its pages you will find descriptions of the M.I.T. activities and athletics, as well as the opportunities in metropolitan Boston for cultural and recreational activities.

It is true in some ways *Tech is Hell*. M.I.T. men work hard and are proud of it. But all too often an incoming freshman becomes so involved with the academic side of learning that he fails to take advantage of the other side—the education that comes with working with people in activities, the broadening of character that comes with the fun of social life.

During Freshman Weekend you will be invited to attend the Activities Midway—at which each activity will put on a display, with leaders present to meet interested freshmen. This is an opportunity you should not miss. Look at the displays, talk with the representatives; you will surely see much that interests you. Don't be hesitant about signing up—the best time to get started is in your first term. You'll find that there is time for active participation in a number of activities—and that they will add much to your enjoyment of M.I.T.

There is plenty of social life, too. A little initiative at the beginning of the year will yield big dividends in the way of contacts. There are more girls' schools in the Boston area than can be found anywhere else in the country.

Best of all, you will find that the girls are eager to meet you and hold a large number of mixers.

You're entering a new world, an exciting world. Don't pass up the opportunities, and you will find your year at M.I.T. will be one of the most rewarding and one of the most enjoyable you have ever spent. Good luck!

THE EDITOR

ACTIVITIES

There are two classes of non-athletic activities at M.I.T., student government, which is centered around the Institute Committee, and the many service and special-interest organizations which report to the Activities Council. Opportunities for freshmen in student government are chiefly restricted to the Freshman Council. The other class of activities, however is wide open to freshman participation.

FRESHMAN COUNCIL

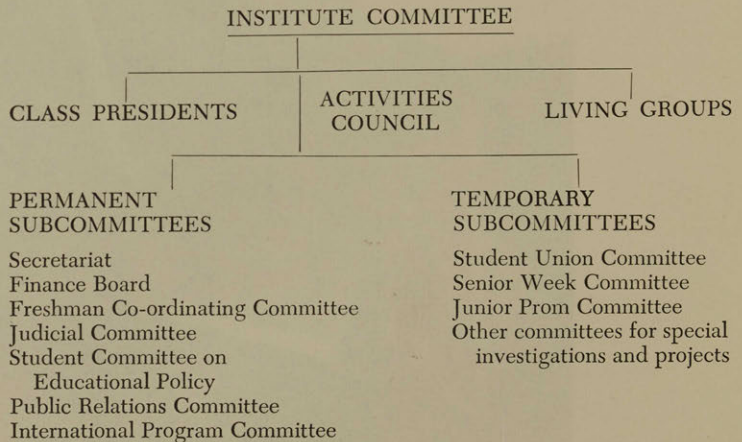

The Freshman Council is the student governing body for the freshman class and is made up of men elected from each one of the freshmen sections. This body plans class activities—in particular, participation in “hazing” competition with the sophomore class through Field Day. Elections of members of this body take place in the fall and are usually held in the humanities classes. These elections are open to all members of the class.

INSTITUTE COMMITTEE

The Institute Committee, commonly called InsComm, is the legislative body of M.I.T. student government. A small group of twenty-one members, its main function is the debate and endorsement of various projects. Most of the actual work of the Committee is carried out by the subcommittees.

The subcommittees are either standing, special, or temporary. The chairmen of the standing subcommittees are non-voting members of the Institute Committee elected by the Committee and have such responsibilities as finance, student-faculty relations, freshman coordination, judiciary, etc.

The special and temporary subcommittees are created for a specific project or projects and differ only in the method of selection of members. The most important of the subcommittees are described below; the organization of Institute Committee activities is shown in this chart:

**PRINCIPAL
OFFICERS OF
INSTITUTE
COMMITTEE,
1963-64**

President of the Undergraduate Association—ALLEN J. ("JERRY") LUEBERS, '64
Chairman of the Interfraternity Conference—JOHN P. DOWNIE, '64
Representatives of the Interfraternity Conference—RICHARD A. CARPENTER, '64 and DAVID E. SULLIVAN, '64
East Campus Representative—G. WAYNE THURMAN, '64
Baker House Representative—ROBERT H. SCOTT, '64
Burton House Representative—JOHN W. RAINIER, '64
Senior House Representative—FRANKLIN P. DARMORY, '64
President of the Association of Women Students—MISS M. L. A. ("SCOTTY") MACVICAR, '65
President of the Non-Resident Student Association—ALAN C. LESLIE, '65
President of the Athletic Association—JAMES E. ALLEN, JR., '64
President of the Activities Council—ROBERT P. POPADIC, '64
President of the Senior Class—STEVEN J. GLASSMAN, '64
President of the Junior Class—WILLIAM C. SAMUELS, '65
President of the Sophomore Class—THOMAS O. JONES, '66

Subcommittee Chairmen:

Secretariat—RICHARD A. CARPENTER, '64
Finance Board—STEPHEN B. MILLER, '64
Judicial Committee—WILLIAM A. PINKERSON, '64
Student Committee on Educational Policy—EDWARD P. HOFFER, '65
Public Relations Committee—JOHN T. GROVES III, '65
Freshman Coordinating Committee—RONALD L. GILMAN, '64
International Student Council—ATIF S. DEBS, '64

SUBCOMMITTEES

SECRETARIAT

The specific duties of the Secretariat—a standing secretariat subcommittee of the Institute Committee—are: 1) to act as the secretarial arm of the Institute Committee, 2) to supervise the use of the undergraduate bulletin boards and the booths in the lobby of Buildings 10, 3) to check and ratify the constitutions of the different activities, and 4) to run the undergraduate elections. In addition, the Secretariat carries on projects of an information-gathering nature to determine the facts on problems of concern to the student body.

At the end of each year the Secretariat chooses fifteen to twenty freshmen as members for the following year. The Secretariat provides the opportunity for its members to work in close contact with the people directly responsible for many of the undergraduate activities.

FINANCE BOARD

Each year, roughly \$13 is taken out of each student's tuition and given to Finance Board for support of undergraduate activities. The Finance Board decides how this money is to be apportioned among the activities, and supervises the financial affairs of all undergraduate activities.

JUDICIAL COMMITTEE

The Judicial Committee is a subcommittee of the Institute Committee organized to give student government a means of handling the legal and disciplinary problems of students and

activities whenever they conflict with the best interests of the Institute community. Action may be initiated by the Committee on request of the Dean's Office, the Faculty Committee on Discipline, a student activity, or any other interested group.

The Committee is composed of five members. The chairman and the secretary are both elected by the outgoing Institute Committee. The other three members of the Committee are representatives of the three living groups. They are elected by the Dormitory Committee, the Inter-fraternity Conference, and the Non-Resident Student Association.

**INTERNATIONAL
PROGRAM
COMMITTEE
(IPC)**

The International Program Committee tries to promote cultural and social exchange between M.I.T.'s large foreign student group and the American students, as well as helping foreign students adjust to M.I.T. life. It presents many programs, smokers, and seminars to further this cause.

**PUBLIC
RELATIONS
COMMITTEE
(PRC)**

The Public Relations Committee, a subcommittee of the Institute Committee, is responsible for communications between Inscomm, its other subcommittees and the student body. It performs this function through a by-weekly newsletter, a special interactivity bulletin, a question-answer radio program, and press releases. It publishes the Freshman Picture Book and handles, or directs, all publicity campaigns for events sponsored by Inscomm or one of its subcommittees. The P.R.C. also cooperates with the Institute Public Relations Office in its relations with the general public.

**FRESHMAN
COORDINATING
COMMITTEE
(FCC)**

It is the job of the Freshman Coordinating Committee to plan and supervise freshman activities from the end of Rush Week until the time when the Freshman Council and freshman officers are selected. After this period, the Committee provides advice and assistance to the Freshman Council for the planning of Field Day, the Freshman Dance, and other activities, and it also represents the freshmen to Institute Committee.

The main function directly under the aegis of the Committee is Freshman Weekend. While many organizations contribute to the success of the Weekend—among them Q-Club, the Faculty Advisory Council, the living groups, and Alpha Phi Omega—the ultimate responsibility for planning and coordinating a successful Weekend rests with the Freshman Coordinating Committee.

**COMMITTEE
ON
EDUCATIONAL
POLICY**

It is the job of the Student Committee on Educational Policy to study the policies of the school, not with the idea of finding something wrong, but looking for areas where some improvement might be made or where a problem could be solved.

Some of the problems that have been tackled in the past are: methods of improving the freshman advisory system, the introduction of freshmen seminars, and the establishment of organized freshman feedback to the teaching staff. Working with the committee provides an excellent opportunity for learning about the operation of the school and possible methods of improving the fine education M.I.T. offers.

ACTIVITIES COUNCIL

To the Activities Council falls the responsibility for the coordination of the many student activities at M.I.T. The Council meets regularly throughout the year in business and discussion meetings aimed at developing the highest standards in the student activities.

Through its voting member on the Institute Committee, the Council represents the interests of the student activities at Tech. By mutual understanding and an effective exchange of ideas, the various activities are better able to function smoothly and efficiently.

One very important function of the Council is the recognition of new activities. Before any organization can use the name of M.I.T. or use any of the school facilities, the Activities Council must have approved its constitution and granted it recognition as a legitimate activity.

PERMANENT MEMBERS OF ACTIVITIES COUNCIL

ALPHA PHI OMEGA

Leadership, friendship and service: these are the by-words of Alpha Phi Omega, America's largest service fraternity, with 75,000 men in more than 350 chapters across the nation. About 50 of these men are members of the M.I.T. chapter, Alpha Chi.

Dedicated to service to school, community, and nation, Alpha Chi works closely with campus organizations and local scout groups. Each fall, Alpha Chi publishes the M.I.T. Student Telephone Directory, listing addresses and telephone numbers for all students at the Institute. Each spring, Alpha Chi sponsors the Spring Carnival, an event encompassing all of the activities and living groups at M.I.T. Throughout the year, Alpha Chi provides instruction in swimming for Cambridge Scouts in the Alumni Pool; holds a Christmas party, complete with Santa Claus, for underprivileged children; provides ushers for many campus functions, the Tech Show, for example; maintains the Institute ride service; distributes *Career* books; and undertakes several scouting projects.

Even before classes begin in the fall, A.P.O. men are on campus, assisting with freshman orientation and freshman registration. In recent years, Alpha Chi has also published a list of helpful hints for incoming freshmen. After finals it is not

unusual for the entire chapter to spend a weekend of work and recreation at a local scout camp, performing some much-needed service.

Membership in Alpha Phi Omega is open to anyone who has been, or would like to be affiliated with scouting and who has a capacity for work, a sense of responsibility, and a desire for fellowship. Potential members must first serve a period of pledgeship, but there is no hazing in A.P.O. Prospective pledges should watch for notices of pledge smokers.

DEBATE SOCIETY

The M.I.T. Debate Society offers an excellent opportunity for those who are interested in participating in debate and public speaking. Very active and successful, the M.I.T. Debate Society participates in many tournaments each year, ranging in locale from the Midwest to New England and the Mid-Atlantic states. All travel and hotel expenses are paid by the Society. In the past years, M.I.T. teams have been among those chosen to represent New England at the National Tournament at West Point.

Each year the Samuel W. Stratton Prize is awarded to the outstanding freshman debator. Open to members of the Society is the M.I.T. chapter of Tau Kappa Alpha, a national forensic honor fraternity.

LECTURE SERIES COMMITTEE

The real mainstay of L.S.C.'s work is its free lecture program which has brought to M.I.T. such notables as Senator Barry Goldwater, Mrs. Eleanor Roosevelt, Pete Seeger, Bennett Cerf, T. S. Eliot, Dr. Wernher von Braun, Dr. Arnold Toynbee, Ayn Rand, Ogden Nash, and a host of others.

Also sponsored by the L.S.C. are two weekly film series. For a nominal fee, the Techman can avail himself of an entertainment film every Saturday night or a classic film every Friday night in Kresge Auditorium or Room 10-250.

Public relations work and publicity are two major categories of endeavor in the L.S.C., and there is always room for those who wish to help with all the behind-the-scenes activity that is necessary to present a lecturer or film. If you enjoy meeting famous people and working with audiences; if you would enjoy selecting or showing films, working in our new photo lab, on our offset press, or designing posters; and if you take pride in a good job well done—then we're sure you'll find it an interesting and rewarding experience to be associated with the Lecture Series Committee.

M.I.T. OUTING CLUB

The M.I.T. Outing Club provides students, members of the staff, faculty, and their immediate families a chance to participate actively in such recreation as rock climbing, mountaineering, square dancing, hiking, biking, folk singing, skiing,

canoeing, and spelunking. This participation is in the form of organized trips. Members with cars provide transportation for people in M.I.T., Wellesley, Simmons, etc., to go to such places as Quincy Quarry or the Shawmagunks in New York State for rock climbing, the Outing Club cabin in New Hampshire for skiing or winter mountaineering, or one of the local schools for a square dance or songfest. In addition, there are regular trips each year with the Intercollegiate Outing Club Association. A few of these trips are College Week, spring and fall Lake George, and Mt. Katahdin Thanksgiving Day.

Founded in 1935, the Club is now an incorporated organization, maintaining an office in Room 306, Walker, open for several hours each weekday and every Monday from 5 to 6 p.m. for the weekly meeting. The many activities of this office include publishing the MITOC News, or "Gnarnpfsk," for all members and renting of such equipment as skis, packboards, snowshoes, tents, etc., to members and others in the Institute community. The MITOC cabin, open to all members of the M.I.T. community at very low rates, is located on a tract of wooded land in Intervale, New Hampshire, in the center of an extensive skiing and climbing region.

MUSICAL CLUBS

The Institute has an active and varied musical program. The student musical organizations are all represented in the Musical Clubs, in which many students and staff members enthusiastically participate.

The Glee Club, over 75 strong, has a busy season of music-making, combining its talents with those of the glee clubs of many women's colleges and with other Musical Clubs groups. Topping off each season is an appearance at Symphony Hall during "Tech Night at the Pops."

The Concert Band, having about 65 players, is in constant demand both at M.I.T. and other colleges and in recent years has played at such places as Smith, Wellesley, and Vassar. In addition, the group has combined with both the Tufts and Harvard Bands and appears regularly in the Hatch Shell on Boston's Esplanade. The Concert Band is unique in that it plays only music originally written for band, and is renowned for having one of the finest repertoires of contemporary band music in the country.

The M.I.T. Symphony, consisting of some 80 players, gives frequent concerts throughout the year, both at M.I.T. and for other colleges and civic groups. A number of these concerts feature M.I.T. students as soloists. The M.I.T. Symphony Orchestra also combines with those of various women's colleges, and often joins either the Glee Club or Choral Society to perform some major choral work.

The Techtonians, a concert jazz band, play at M.I.T. and for other functions around Boston.

In addition to the Musical Clubs, and very worthy of note, is the Choral Society, a mixed group whose area of musical concentration is in cantatas, oratorios, and other large-scale choral pieces. This group has achieved a very high reputation for its performances of these works, and in the summer of 1962 completed its third European summer tour.

NAUTICAL ASSOCIATION

One of the chief sources of diversion for Tech students is sailing on the Charles River Basin directly opposite the school. A fleet of several types of sailboats—mostly “Tech dinghies”—is at the disposal of the undergraduate body as well as other Institute personnel. The sailing season opens in March and runs well into November. Out of the yearly membership of about 1,000, a large number are learning to sail for the first time under the freshman athletic program and the shore school program for other students and personnel.

In addition, there is a sailing team which offers inter-collegiate competition for experienced sailors, for those who wish to learn to race under the training system, and for those interested in managerial positions. For those who do not wish to sail on the varsity, an intramural racing program is maintained. This involves competition between living groups as well as individual competition.

Membership in the Nautical Association is obtained by paying a small fee, which entitles members to free use of the boats.

TECH ENGINEERING NEWS

Among the undergraduate publications at M.I.T., the *Tech Engineering News* has the hard-earned reputation of being a serious magazine aimed at readers whose present profession is that of being students at Tech. It is the policy of T.E.N. to print material representing a cross-section of thought at M.I.T., and the editorial staff of the magazine is organized with that consideration in mind.

M.I.T.'s students, from freshmen to seniors, write most of the articles, with occasional subjects turned in by professors or reprinted from other journals. Although most of the authors are members of the staff, articles written by non-staff members may be considered by the T.E.N. editorial board and are frequently published.

Freshmen form an important part of the staff, and there are many interesting positions open to them. From positions on the various staffs (make-up, silk screen poster making, advertising, sales, circulation, and business), there are many opportunities for advancement. Freshmen are given an opportunity to learn technical writing and reporting by taking

an assignment and working on it until it is in a condition to be printed.

On the social side, T.E.N. holds monthly dinners for staff members and an occasional party or dance. New members are recruited in its office, Room 302, Walker Memorial. Interested freshmen are invited to stop by. Office hours are from 5 to 6 weekdays.

TECH SHOW

Tech Show was established in 1898, when a group of M.I.T. students created the first all-Tech musical. In its first year, the show grew from a scheduled three performances in old Rogers Hall to a week's stand in a Boston theater, and Tech Show has been growing ever since. At present it is one of the foremost college musicals in the country, involving more than 150 students.

Producing a show with the size and polish of a Tech Show requires the coordinated effort of many departments. Newcomers to the show work on one of the staffs and move up into the managerial positions as they gain experience. For those who want to get into the limelight, there are, of course, the cast and chorus, numbering about fifty people, gleaned from the Tech campus and the nearby girls' schools. A smoker and auditions will be held during the beginning of the fall term, and rehearsals begin within the month following. Many months of activity culminate in the presentation for two consecutive weekends in late February. Creative minds and hands find expression in scenery and costume design, lighting, composing, orchestration, writing, poster design, and program layout. The list of performers also includes the orchestra, whose work is concentrated more towards the end of the season. The business staff, publicity staff, sales staff, office staff, social staff, and program advertising staff round out the company of Tech Show.

TECHNIQUE

Technique, the M.I.T. yearbook, is an activity almost as old as Tech. The book, which has been published every spring for the past 75 years, is more than just an annual history of M.I.T.'s academic and social activities. It conveys something of the life here. As such, *Technique* becomes a valuable keepsake to a graduate's as well as an undergraduate's bookshelf.

The production of the book is started far in advance of publication. Planning begins in the spring as soon as the newly elected boards take office and continues through the summer. By fall work starts in earnest, and it continues till the book is sent to press in the spring. Literary, art, photography, and business staffs are seen in action. Any student interested in joining in the work on this publication is welcomed to come to the fall smoker.

**TECHNOLOGY
COMMUNITY
ASSOCIATION**

Perhaps the most diversified student activity on campus, the Technology Community Association is active in practically all spheres of extra-curricular endeavor. Primarily a service organization, the T.C.A. administers a wide variety of programs designed for the students' benefit and conducts a number of community projects in which M.I.T. students participate in conjunction with students from other colleges in the Boston area. Through a network of T.C.A. Living Group Representatives, the student body is kept informed of goings-on around Boston and of T.C.A. activities of a general or special interest.

The office in Tyler Lounge on the first floor of Walker Memorial remains open all year round, as many of our services continue during the summer. Connie and Chippie, T.C.A.'s two paid secretaries, are known to just about everyone on campus and are always happy to lend a helping hand to anyone wishing to take advantage of the facilities in our office.

A brief description of some of the programs sponsored by the T.C.A. may serve to convey some appreciation of the scope of our activity.

Duplication Facilities: The T.C.A. maintains in its office hectograph, mimeograph, and addressograph machines available for general use. The T.C.A. is ordinarily the only place that a mass duplication job may be performed by a student. Typewriters and an adding machine are also available. Chip-pie is the gal to speak to when interested in learning how to use this equipment.

Book Exchange: The T.C.A. Book Exchange is also housed in the office, where shelves of used books are constantly on display. Considerable money may be diverted to more interesting uses through buying and selling your textbooks here.

Ticket Service: Tickets to the wide variety of cultural events for which Boston is renowned may be obtained through this service. The T.C.A. can reserve tickets at Boston theatres (which cannot be done by private individuals), thereby saving the bother of a trip downtown to get seats in advance. Simply call the T.C.A. at extension 4886 and ask for Connie. Tickets for Harvard home football games may also be arranged by the T.C.A.

Travel Service: A travel folder rack complete with plane, train, and bus schedules is maintained in the T.C.A. office. Students may arrange travel reservations through M.I.T.'s regular travel agents, the Raymond and Whitcomb Company, by calling extension 4438; tickets will be sent to the T.C.A. office where they may be picked up.

Hotel Service: Reservations for parents or other guests at Boston hotels may be obtained at reasonable rates through

the T.C.A. Information about local hotels is posted in the office, and further queries should be directed to Connie. Reservations at hotels in the larger chains throughout the country may also be made at the office.

Publications: The M.I.T. Social Beaver, of which this is the sixty-seventh edition, is annually revised and published by the T.C.A. and sent to all incoming freshmen. Intended as a guide to extra-curricular life both on and off campus, the *Beaver* is a convenient and informative reference.

The T.C.A. Blotter is a large desk blotter annually printed by the T.C.A. and distributed to all living groups at the beginning of each term. It is a campus favorite because it contains in handy form much useful information.

The weekly newsletter distributed to the Living Group Representatives is the most frequent publication of the T.C.A. and the least formal. It provides a very important information link between the T.C.A. and the student body.

Publicity Division: The Institute is presently building new headquarters for the T.C.A. Publicity Center in the basement of Walker Memorial. This facility, long awaited by student activities and politicians, is expected to be ready for operation this fall. A complete silk-screen poster duplication system will be the main feature, while other facilities for producing advertising will be made available.

Of course, no service organization such as the T.C.A. could operate efficiently without an active publicity campaign of its own. The T.C.A. publicity staff makes certain that our services are well-advertised on the Institute bulletin boards, while our public relations manager writes up T.C.A. activities for on-campus and Boston publications. A project to make our publicity more effective on campus through motivational research is presently in the planning stage.

Projector Service: The T.C.A. owns and maintains two 16-mm. sound movie projectors, two 8-mm. projectors, and two 35-mm. slide projectors, which are loaned free of charge to student groups. This service has stimulated the use of educational films by student professional societies and broadened the range of possibilities for social functions at the living groups.

Typing Classes: The T.C.A. sponsors a semester-long typing course each term, which meets once or twice weekly during the evening. Available to all for a nominal charge which includes the text, the classes are taught by qualified Techretaries (M.I.T. secretaries) and provide a very useful complement to the academic education at M.I.T.

Baker Memorial Prints: The T.C.A. maintains a library of nearly two hundred framed reproductions of paintings which students may rent by the term to hang in their rooms.

The collection includes both modern artists and old masters as well as original etchings and silk-screen prints. To obtain a print, come to the T.C.A. at the beginning of the term.

Blood Drive: Each spring, the T.C.A., in conjunction with the Institute and the American Red Cross, sponsors an Institute-wide blood drive to replenish the M.I.T. account at the Red Cross blood bank. This account, by the way, may be drawn from free of charge by anyone affiliated with M.I.T. Last year the T.C.A. Blood Drive set an all-time record—over 1,150 pints were donated by the M.I.T. community.

Charities Drive: Each fall the T.C.A. sponsors the only recognized on-campus solicitation for charity. Charities of national or international scope are generally publicized, while contributions to any recognized charity are accepted.

Board of T.C.A. Living Group Representatives: The T.C.A. annually asks each living group on campus to select a T.C.A. representative, who is informed of T.C.A. activities and, in turn, provides a source of ideas for improvement in or additions to the program of services.

Social Services Division: The T.C.A.'s activities are by no means limited to on-campus projects. A large part of its work is devoted to fulfilling college students' responsibilities to the surrounding community.

One program deserving of particular recognition is the summer school for high school students interested in M.I.T. freshman courses as taught by M.I.T. students. Response from the high schools has been overwhelming, while participation as an instructor provides excellent training for prospective teachers.

During the school year, teaching experience may be obtained by working on the T.C.A. tutoring program for high school students or by giving instruction in hobbies and arts and crafts to underprivileged children in the T.C.A. Settlement House Program. In our Mental Hospital Program, volunteers do much-needed work to help rehabilitate mental patients, especially children in nearby hospitals. In fact, the T.C.A. maintains a list of openings for a large variety of volunteer work in many Boston hospitals and will be glad to assist anyone wishing to obtain some experience along these lines.

This year, the T.C.A. will sponsor a series of lectures to be delivered by prominent people in the Boston area concerning problems of local or national scope of special interest here.

While most of the work in the social services division is truly volunteer work and should not be attempted by those lacking a genuine interest in children, the work is made all the more popular through our program of intercollegiate coordination. Many of our projects are undertaken with assistance

from students in other colleges, particularly girls having a special interest in such work.

As may be seen, the T.C.A. has an unusually broad basis of operation, so that many openings are available each year for students interested in doing serious, responsible work. Many of its general services operate in the fashion of small businesses, so that their administration provides very worthwhile experience in management, accounting, and publicity. Since most projects are undertaken with the close cooperation of the Institute, T.C.A. members find themselves in close contact with prominent individuals on campus, while other important people are often met in the course of work on public relations or the speakers program. *The Social Beaver* requires the talents of skilled writers and artists, while the latter are also much needed for work on our publicity staff. Devising effective advertising techniques on this campus remains a challenge. And for work in the social services division, a genuine interest and some social skill should enable students to derive a great deal of personal benefit.

While the work of the T.C.A. is very serious and responsible work, the organization has an alter ego which appears in the pleasure members take in working together on important projects and the friendships that naturally arise. Social events and other functions planned for the membership provide a pleasant contrast to the responsibility shouldered by the Association.

THE TECH

If it happens at M.I.T., *The Tech* is there. *The Tech* reporters were the first students to hear of the 1962 tuition rise and were among the first to see the plans for the proposed student union. *The Tech* reporters had free front row seats to lectures by such well-known people as T. S. Eliot, Prime Minister Harold Macmillan, Dr. Werner Von Braun, and many others. *The Tech* reviewers receive free tickets to all important plays and movies in Boston. *The Tech's* dynamic editorials help mold student opinion.

Writers are only a part of the diverse organization needed to publish a weekly newspaper, however. *The Tech's* business board is completely responsible for running this \$35,000-a-year business, the largest at M.I.T. It offers practical experience in administration, business, and finance.

The Tech's photographers are on the scene for all important events, and have traveled to such places as Washington, D. C., (to cover a peace march) and New Hampshire (with the ski team). Furthermore, staff photographers may use the new, completely modern darkroom for personal work.

The final appearance of the newspaper is the responsibility of the managing board, whose members follow the

paper from its initial stages to the finished product.

This fall, *The Tech* is expanding to publish the largest issues in its history. Many more people will be needed, and new staff members will be given challenging assignments.

**VOO
DOO**

Voo Doo is an incredibly funny magazine that is published once a month during the school year by an enthusiastic following of devotees. It brings, we modestly hope, a bubbling measure of cheer and joy into the life of the mentally cowed and undermined engineer. It is the only organization on campus dedicated exclusively to that rare and elusive element, laughter.

The *Voo Doo* staff offers opportunities for all manner of talent, and we use the word loosely. If you have aspirations to write sentences as polished and urbane as these that we are here tossing off effortlessly (and, with application, who knows that some day you may not!); if you have artistic pretensions; if you have a large collection of jokes or own a razor blade keen enough to slice them from other sources; if you fancy yourself a publicity agent or an advertising man; if you are of such sterling character as to be entrusted the safe keeping of our soaring bank account; if, on sales day, you can shout convincingly in a great stentorian basso, "Get your *Voo Doo* before they're all gone," while four thousand unsold copies moulder at your feet; if you can wield a broom with sufficient vigor to keep the rats out of the beer closet; if you enjoy wild, wild parties, several of which *Voo Doo* sponsors each year for its staff and their dates; if you can, or would like to, do any of these things, there is room for you on the *Voo Doo* staff.

But hark; *Voo Doo* is more than just another extra-curricular activity whose roles are filled with disinterested "joiners." Rather, it is a satisfying way of life, suitable to all those of stout heart and good cheer who enjoy nothing better than a good laugh and who desire to make the whole world (or at least the considerable portion that reads *Voo Doo*) laugh with them.

WTBS WTBS is the campus radio station, constructed, programmed, and maintained by students. It broadcasts nearly 70 hours each week over its FM facilities at 88.1 Mc. and within the dormitories over its carrier-current AM equipment operating at 640 Kc. and over high-fidelity audio lines.

Broadcasting from facilities comparable to most commercial stations, WTBS presents a more varied schedule of programs than any of its fifteen FM competitors in Boston. Within the general framework of popular music, jazz, folk music, classical music, news, and special features, we present not only commercial recordings drawn from both our extensive library and local record stores but also live performances by artists of interest to the M.I.T. community. These programs originate both on campus and at various entertainment centers in Greater Boston. Home basketball and hockey games are broadcast during their respective seasons as well.

WTBS is completely student-run, requiring a large and varied staff. All areas of activity within the station are open to prospective members. In addition to those normally associated with being "on the air," large maintenance, business, advertising, and publicity departments must be maintained. While persons already familiar with commercial radio will find many points of similarity in WTBS, no previous experience is expected on the part of new members. Most staff training is begun immediately following Activities Midway in preparation for a full schedule of broadcasts shortly thereafter, but prospective members as well as visitors are welcome at our Walker Memorial studios any time.

We believe WTBS offers its members a truly absorbing activity. This applies to those able to devote only one or two hours a week as well as to those who find more time available. The enthusiasm of its members comes from their participation in a group activity not only entertaining to its members but appreciated by the community it serves.

ROTATING MEMBERS OF ACTIVITIES COUNCIL

L'AMITIE L'Amitié is the French society of M.I.T. Open to all interested persons, the group's main activity is the showing each year of several well-known French films (usually centering around one theme) in connection with the Colonie Française of Boston. Discussions with noted Frenchmen often follow the films. Bi-weekly business meetings are held, and parties with the French Club of Simmons College are arranged twice a year.

ARAB CLUB The aim of the Arab Club is two-fold. Primarily, it is designed to bring the Arab members of the M.I.T. community into close

association with one another and thus render a strange and perhaps lonely environment somewhat less foreboding. In addition, the organization attempts to create a better understanding of Arab peoples by sponsoring lecturers who present the Arab viewpoint of various world problems. The club, formed quite recently, welcomes all interested persons to join. Occasional dinners for members are held.

BATON SOCIETY

Baton Society is the honorary musical organization at Tech; its members are selected from those undergraduates who have shown unusual initiative and ability in their participation in the musical activities of the Institute. Honorary members are chosen from the alumni, faculty, and others who are interested in the musical activities of the M.I.T. student body.

The Society's purpose is to further musical activities of all kinds at the Institute, and in the past few years performances by Ella Fitzgerald, the Boston Woodwind Quintet, the New England Intercollegiate Band, and the New England Opera Theater, as well as two annual events—the All-Tech Sing and the Tech Night at the Pops—have been sponsored by the Society. The All-Tech Sing, which features competitive performances by M.I.T. living groups, is highlighted by the presentation of "Egbert."

In addition to these activities, the Baton Society has a weekly radio program — "Baton Society Presents" — and its members write a weekly music column — "Half Notes" — in *The Tech*.

BEAVER KEY

Beaver Key, the junior class honorary, selects each year the thirty to thirty-five men who have been most outstanding in campus activities through the end of their sophomore year.

The "Key" functions both as an honorary society and as a service organization with its primary purpose to act as host to visiting athletic teams. It sponsors Field Day, the culmination of freshmen-sophomore rivalry, and contributes to other Institute activities by publishing information helpful to people visiting M.I.T.

Students applying for admission to M.I.T. and wishing to visit the campus may stay with a Beaver Key member in his living group. A student faculty basketball game, supporting the M.I.T. varsity basketball team, is sponsored by the "Key."

Probably the most pleasant task of the "Key" is the awarding of the Beaver Key Trophy to that living group which has the highest participation in intercollegiate athletics.

BRIDGE CLUB

The M.I.T. Bridge Club is affiliated with the American Contract Bridge League. Duplicate tournaments are held every

Saturday afternoon in the Walker Memorial Blue Room. A.C.B.L. masterpoints are awarded at all events; in addition, the club holds four sanctioned championship events and two special games annually. Trophies and prizes are awarded for championship events. The Bridge Club is also active in competition with other schools. The National Intercollegiate Contest provides an opportunity to compete with players across the country.

The Club's pleasant, social atmosphere plus a chance for national recognition make the M.I.T. Bridge Club a nice place to enjoy Saturday afternoon. The Club is open to all members and friends of the M.I.T. community.

CHINESE STUDENTS' CLUB

Founded in 1916, the Chinese Students' Club strives to promote fellowship among Chinese students at M.I.T. and other colleges. Every Chinese at M.I.T. is cordially invited to join the Club.

Cultural activities, such as lectures and seminars, are sponsored by the Club whenever possible. The Club also sponsors parties and dances and participates in intramural sports events as well as in athletic meets with similar organizations in other colleges. Club publications include an annual directory of Chinese students at M.I.T. and notices and progress reports to keep members informed of current activities of the Club. These are mailed to every Chinese student at M.I.T. during the term.

CLUB LATINO

The Club Latino is an organization of Spanish-speaking students. Its purpose is not only to draw its members into closer contact with one another but to generate a better understanding between Spanish-speaking students and their North American fellows. It accomplishes this dual purpose by sponsoring occasional conferences, exhibitions, Spanish language movies, and a monthly fiesta dance party, complete with Latin American music and atmosphere, which is open to everyone at a modest price.

Club Latino holds a business meeting once a month and publishes a newspaper, *El Mensajero Latino*, several times a year.

DeMOLAY

DeMolay is a national service fraternity sponsored in an advisory manner by the Masonic Lodges. Open to all interested male students, its members perform such services as selling tickets, ushering at campus events, soliciting blood for the Red Cross, and raising funds for charities.

DeMolay is not all work, however. Social functions such as the Christmas and Halloween parties, the Sweetheart Ball, and occasional picnics brighten the DeMolay member's life

at Tech. Bowling and table tennis teams under the DeMolay banner regularly participate in the intramural sports program.

Anyone presently affiliated with another chapter of DeMolay may join the M.I.T. chapter and still hold membership in the former.

THE DRAMASHOP

Since its reorganization when Professor Joseph D. Everingham became M.I.T. Director of Drama, Dramashop has become one of the most active and popular of all undergraduate activities. The group presents one major production and two evenings of one-act plays each term. The major productions have included such plays as "The Matchmaker," by Thornton Wilder, "The Entertainer," by John Osborne, and an adaptation of Franz Kafka's "The Trial." The evenings of one-act plays are entirely directed and produced by students. In addition to these activities, Dramashop sponsors a Celebrities Series which presents events of major dramatic interest. Recent presentations in this series include Sir John Gielgud in "The Ages of Man" and Circle in the Square's production of "Under Milkwood," by Dylan Thomas. Such speakers as Robert Graves, Robert Anderson (author of "Tea and Sympathy"), and Richard Wilbur, winner of the 1957 National Book Award and Pulitzer Prize for Poetry, have appeared under its banner.

Casts are chosen at open try-outs for M.I.T. students and coeds from surrounding girls' schools including Simmons, Boston University, Emerson, and Wellesley. A booth at the Activities Midway proclaims the opening of each new season. The gathering place of the group is the Little Theater of Kresge Auditorium. Posters announce casting and other activities, but the door is always open to anyone who has become fascinated by the stage. Meetings are held regularly and anyone, no matter what his degree of experience, is invited.

EULENSPIEGEL VEREIN

The German language club of M.I.T., Eulenspiegel Verein, is a youngster as far as Class B activities go, being only two years old. It is a full-fledged and active organization, however, intent on bringing interested students into contact with many facets of German culture. The Club presents German language films and lectures and develops close ties with M.I.T. personnel who hail from Germanic lands. On the social side, several parties are given, highlighted by the Masquerade Carnival Ball.

Eulenspiegel Verein is a member of the International Program Committee and actively participates in International Week.

GLIDER CLUB

The M.I.T. Glider Club, more formally known as the Aeronautical Engineering Society, is a non-profit club dedicated to

the promotion and practice of the art of motorless flight (gliding and soaring).

The A.E.S., the oldest club of its type in the western hemisphere, owns a Schweizer 2-22 two-place training glider which it flies on spring, summer, and fall weekends at a privately owned airport about 40 minutes from Tech. Flight instruction is provided free of charge by certified club instructors.

In addition to regular club business, ground school training is given and interesting films or speakers are presented. The club is happy to offer demonstration flights to all interested persons; soaring is a sport you have to experience to appreciate, and the Society can guarantee you won't be disappointed; come give it a try!

THE HOBBY SHOP

The Hobby Shop, now located in the basement of Building 2, is for the do-it-yourself crowd, ranging from freshmen to Institute professors. It has complete facilities, including heavy equipment, for working in wood and metal, for photography, for radio and electrical projects, and for printing.

MATH CLUB

The Math Club welcomes all undergraduates interested in mathematics. Students and faculty give lectures on subjects which, although understandable to freshmen, are not found in the average undergraduate program. A member of the M.I.T. faculty is associated with the club.

M.I.T. RAILROADERS ASSOCIATION

The M.I.T. Railroaders Association activities are designed for anyone interested in railroads—steam, diesel, or electric. Regular meetings feature speakers or films of various railroading subjects. Trips are made to visit railroad and transit shops, lines, and other facilities of interest. Plans for next year include a steam excursion out of Boston.

PARA- PSYCHOLOGICAL RESEARCH GROUP

Those interested in the possibility of extrasensory perception or psychokinesis will probably find meetings of the Parapsychological Research Group a valuable and stimulating forum for the enlargement of their knowledge in this field. Each year a number of lectures by noted authorities and researchers are held under our auspices. These are all preserved on tape in the P.R.G. "library," which also contains books and journals to supplement those found in Institute libraries. The Group's research program, like its library, is growing slowly but surely. There are workers and volunteers for those who have ideas, and there are new ideas for those who want to work.

PERSHING RIFLES

The National Society of Pershing Rifles was established in 1894 "in order to encourage, preserve, and develop the highest

ideals of the military profession." Regularly enrolled students in the first- and second-year basic courses of Air Force, Army, and Navy R.O.T.C. are eligible for membership in the Society. Active membership is designated by the blue and white fourragere worn on the left shoulder of the uniform.

The unit strives to increase the military proficiency of its members through the media of intensified drill instruction by the company's officers, field maneuvers and compass problems, motion pictures, and talks by members of the R.O.T.C. departments. Participation in the Regional Assemblies, the Annual Regimental Drill Meet, Company business meetings, Trick Drill Team, Rifle Team, and a wide range of social activities combine to present a broad, well-balanced program to all members of the unit.

QUADRANGLE CLUB

The Quadrangle Club is an honorary sophomore organization composed of 25 students who during their freshman year were outstanding either in the field of athletics or in student government. The purpose of the Club is to support sophomore class activities and stimulate a class spirit among the incoming freshmen.

ROCKET RESEARCH SOCIETY

The M.I.T. Rocket Research Society is an organization of people interested in any aspect of rocket propulsion. Considerable research work with both solid and liquid propellants is done by members, and the experimental work for several theses has been carried out with Society facilities. Members have twice won a nationwide undergraduate competition sponsored by the American Rocket Society. Static test equipment ranks with the best available to amateurs anywhere, and a flight test range is at our disposal.

Members come from the M.I.T. community and other colleges in the area to attend business meetings every two weeks and to do experimental work evenings and weekends.

SCABBARD AND BLADE

The National Society of Scabbard and Blade is represented at the Institute by G Company, 5th Regiment. Students holding cadet commissions in the advanced Reserve Officer Training Corps and demonstrating outstanding character and proficiency in military science are eligible for election to the Society.

SCIENCE FICTION SOCIETY

The M.I.T. Science Fiction Society is a growing organization which reflects the widespread interest in science fiction among many Techmen (and coeds). Combined business and discussion meetings are scheduled weekly throughout the academic year.

In the past the Society has arranged lectures and informal talks by such noted men in the field as Asimov,

Clement, Campbell, Gernsback, and Abernathy. The Society usually presents one or two outstanding science fiction movies during the year which are open to the public.

The library of the Science Fiction Society, located in the basement of Walker Memorial, is expanding at a rapid rate. It contains over 3,000 handbacks, paperbacks, and magazine volumes and includes microfilms of early issues and a complete set of bound *Astounding Science Fiction* magazine.

SPORTS CAR CLUB

The M.I.T. Sports Car Club is the oldest and one of the most active collegiate sports car clubs. Its leadership in the sports car community is evidenced by its position on the boards of directors of the Conference of Sports Cars of Eastern New England and of the Intercollegiate Sports Car Authority.

The club frequently holds and enters gymkhanas, rallies, autocrosses, and ice trials (often winning annual team championships). The meetings include movies, speakers, and discussions relevant to both the owner-driver and the less mobile enthusiast.

Members benefit by an increase in driving and navigational skill and safety, assistance in owner maintenance, and substantial discounts on automotive parts. Membership is open to all enthusiasts—whether or not they drive sports cars.

STUDENT METALLURGICAL SOCIETY

In the field of metallurgy there are three prominent professional societies: the American Society for Metals, the American Foundryman's Society, and the American Institute of Mining, Metallurgical, and Petroleum Engineers. In order to include all three at M.I.T. a composite organization, the Student Metallurgical Society, was formed. It has a threefold duty to perform, providing membership in the professional societies, administering metallurgy students' activities, and sponsoring special lectures and gatherings throughout the year. As the originator of the steak and beer parties held in the Foundry, the Society annually holds one of the best. Other activities include joint dinner meetings with the local chapters of the affiliated professional societies and the casting of aluminum beer mugs for S.M.S. members. Membership is open to any member of the M.I.T. community with an interest in the field of metallurgy or materials science.

THE SWIM CLUB

The M.I.T. Swim Club, an honorary society open only to men who have won a varsity letter in swimming, has as its purpose the promotion of swimming at M.I.T. Each November it sponsors the All-Institute Swimming Championships, which feature competition among undergraduates, graduates, and faculty; and outstanding exhibitions by champion divers and water ballet groups.

**TABLE
TENNIS
CLUB**

The Table Tennis Club is another in the expanding list of recently formed groups in which the Tech man can participate. Its purpose is simply getting people together who enjoy playing the game. The Club possesses a game room in the Armory basement and will soon have five tables available. The sponsor of frequent tournaments, the Table Tennis Club also organizes the M.I.T. intercollegiate team.

TANGENT

In addition to soliciting poems, short stories, and sketches from one and all, *Tangent*, the literary magazine of M.I.T., has a considerable need for permanent staff members. This growing publication now has an office of its own and may well be on the way to becoming a Class A activity. "Coffee and criticism" sessions open to all interested persons are regularly held, and staff clinics designed to select worthwhile publication material are becoming increasingly necessary as student contribution and interest grows.

**TECH
BOAT
CLUB**

The Tech Boat Club is an organization of oarsmen which is dedicated to the advancement of rowing at M.I.T. Each year it honors those oarsmen who have shown outstanding desire for improving the quality of our racing crews by electing them to membership in the Club.

Throughout the year, the Boat Club sponsors many activities for the benefit and enjoyment of all past, present, and future M.I.T. oarsmen. Among those activities are the Richards Cup Class Day Races and Steak Fry (attended by over 200 oarsmen and their dates last year), the Pre-Season Rowing Banquet, Regatta Day advertising campaigns, the *Tech Crew Newsletter*, the Post-Season Rowing Banquet, and the Freshman Crew Newsletter.

**TECH
FLYING
CLUB**

The Tech Flying Club was founded to provide for its members the best aircraft available, at very modest costs, and to aid in the aeronautical education of its members. The Club presently operates three aircraft: Cessna 150, Cessna 172, and Cessna Skylane. All the aircraft are of metal construction, have easy-to-fly tricycle landing gears, and are fun to fly. The two-place 150 has a primary panel, VHF and omni; the four-place, 160 m.p.h. Skylane is the perfect cross-country instrument plane with dual VHF, dual omni, localizer, marked beacon, ADF, and gyros.

The planes are popular for local hops and cross-country trips (Smith, Vassar, etc); T.F.C.'s active membership flies 200,000 miles a year in its modern equipment. The Club operates out of Hanscom Field (accessible by public transportation), where flight instruction is available for new pilots. No flying experience is required for membership.

Meetings feature interesting films and talks on flying as well as a social get-together to exchange flying experiences. Additional expansion is planned in the near future for this fast growing organization because of the interest shown in flying.

**TECH
MODEL
AIRCRAFTERS**

To those who have an interest in building and flying model aircraft, the Tech Model Aircrafters can provide the facilities to pursue this hobby. It sponsors contests and engages in scientific study of model aircraft and model aerodynamics.

**TECH
MODEL
RAILROAD
CLUB**

Located in Room 20E-216, the Tech Model Railroad Club operates the Tech Nickel Plate Railroad (HO-NMRA standard) and its trolley and narrow gauge subsidiaries. The Club's layout is extensive, and anyone who has an interest in model railroading will find this a great opportunity. Five trains may be run independently, either semi-automatically—using the 900-relay auto-advance system—or manually. Train positions are shown on a large schematic diagram of the layout. Anyone interested is invited to drop by any Saturday afternoon or evening during an operating-work session. The Club, which is a member of the N.M.R.A., holds its business meetings on Tuesdays at 5:15 p.m.

**THE
YOUNG
REPUBLICAN
CLUB**

If your political tastes run from those of Rockefeller to a few degrees to the right of Goldwater and you would like an opportunity to expound them, the Young Republican Club has a place for you. The New Frontier hasn't emptied all of Cambridge, and there is plenty of political discussion and debate. Activities range from radio debates with a disarmament group to working with local Republican organizations in election campaigns. On the social scene, M.I.T. men work closely with the Young Republicans at Wellesley and Radcliffe. The club is looking forward to an active term, with plenty of opportunity for effective freshmen participation, and its members look forward to meeting freshmen at the Activities Midway in the fall!

**W1MX
AMATEUR
RADIO
SOCIETY**

The Radio Society at M.I.T. was founded in 1909, making it one of the oldest college organizations of its kind in the world. Organized to further interest in amateur radio, the society today provides space where radio enthusiasts can design, construct, and operate modern radio equipment. The M.I.T. "ham" will find radio equipment in W1MX's office on the third floor of Walker Memorial capable of working most of the amateur bands. Future plans include improved equipment and experimental facilities. Another interesting phase of the society's activities is the handling of messages to and from all parts of the United States and its possessions. Person-to-person

contacts have often been made between Tech students and their relatives in far parts of the world.

ZEAMER SQUADRON

The Zeamer Squadron is a group of Air Force R.O.T.C. cadets who sponsor a program designed to give them a broad view of the Air Force and to increase their proficiency in A.F.R.O.T.C. In order to get a complete view of the Air Force, the squadron sponsors several orientation flights in U.S.A.F. aircraft and field trips to operational bases. At the bi-monthly meetings Air Force speakers and movies keep the members up-to-date on the latest developments and opportunities in the U.S.A.F. The squadron also performs various services for A.F.R.O.T.C. The squadron takes its name from Lt. Col. Jay Zeamer, Jr., a Congressional Medal of Honor winner and an M.I.T. alumnus, and it is also part of the National Arnold Air Society.

LIVING GROUPS

On the basis of its living groups, the M.I.T. community divides itself into three parts—those who live in dormitories, those who live in fraternities, and those who live at home or in rooms or apartments in Boston. More than three-fourths of the undergraduates fall into the first two categories, and nearly half of them live in M.I.T. dormitories on the campus.

DORMITORIES

The dormitory system of M.I.T. provides an education in itself. You will meet many people from different backgrounds with a great many different ideas. If individuality is important to you and the experience of meeting people stimulating, the dormitories have a lot to offer. You are under no pressures; your life in the dormitory system is as you want to make it. The results that you achieve living in the dormitory system are a reflection of your own personality and maturity. The dormitories are in the proximity of the Institute and the many opportunities that it offers. They consist of four groups: Burton House, Baker House, East Campus and Senior House. Together these dorms house about half of M.I.T.'s undergraduates.

- BURTON HOUSE** Burton House is the largest dorm, yet it has none of the impersonality that you might associate with its size. Burton has the reputation of being a close and spirited group of men. Burton men are found in a wide variety of student activities at the Institute and within the House.
- BAKER HOUSE** Baker House, the most modern men's accommodation on campus, is also very popular. The many facilities of Baker provide an opportunity for all to enjoy Baker life. Its proximity to the Institute makes it convenient for its residents. Most freshmen who aspire to live in Baker end up in a Burton double. To avoid complete disappointment, choose reasonably. Remember, upperclassmen have the first choice.
- BEXLEY HALL** This convenient dormitory, formerly an apartment building just across from the Institute's main entrance on Massachusetts' Avenue, will be opened as a men's residence this year for the first time.
- EAST CAMPUS** East Campus, near Walker Memorial and the Library, is the most convenient dormitory. The most distinguishing feature is the large number of single rooms. These foster a high degree of personal freedom. A wide range of athletic and social events are sponsored each year by the house's student government. Also, many physical improvements have recently been

made to provide more opportunities to the residents for activity.

SENIOR HOUSE

Senior House is the smallest dorm. With a healthy mixture of singles and large doubles, and the limit of eight to twelve men to a floor, Senior House offers a congenial atmosphere for both work and socializing. Residents of Senior House tend to form a more closely knit group than the other dorms.

DINING FACILITIES

Burton and Baker House residents are required to take commons meals in their respective dining halls. East Campus and Senior House residents have the option of eating out if they so choose. Walker Memorial and the Graduate House provide regular service for these students.

GOVERNMENT

The House Committees of the various houses take care of the needs of student life in these houses. They provide for the athletic, social, cultural, and physical benefits of the dorm. Serving on house committees provides an excellent opportunity for those interested in the various aspects of student government.

The social committees of the individual houses hold a good number of mixers each term. These are especially noted for the throngs of girls who come unescorted.

For those who enjoy athletics, the houses offer a unique opportunity in intramural athletics and competition between sections of each house. This allows many who are not very proficient to enjoy themselves and helps foster a spirit of camaraderie in each living group.

FRATERNITIES

Fraternities at M.I.T. are unique in enjoying freedom from external authority. In response to this privilege, fraternity men have developed a keen sense of responsibility for their actions as individuals and as living groups. Government among the fraternities is handled by collective action through the Interfraternity Conference. This group represents the fraternities in formal relations with the rest of the Institute community.

Fraternity men comprise more than a third of all undergraduates at M.I.T. Because the fraternity program is designed to stimulate and develop qualities of leadership, it is not surprising to find fraternity members playing an important role in student life, student government, music and drama, athletics, and other fields of student interest.

Scholarship—Scholarship is of great importance at M.I.T. Fraternity scholarship programs assure that entering fresh-

men will develop sound study habits and learn quickly to adapt to the rigorous way of life at Tech. In all chapters, upperclassmen work together as a team in an effort to get the new men started properly with supervised study periods and suggested study procedures. Keen competition exists among individual houses in achieving a high scholastic average for the school year.

Social Environment—All M.I.T. chapters have well-planned and varied programs of social activities which provide many pleasant interludes throughout the college year. These social gatherings develop in the individual a sense of social adaptability. In a broad sense, fraternities are the greatest socializing force on the Tech campus.

RUSHING

Here at Tech the fraternities try to meet prospective members mainly during Rush Week, the week prior to Freshman Week-end. This week offers freshmen an excellent opportunity to view fraternity life. We heartily recommend that each interested person attend this Rush Week. It will offer a chance to meet the men from the various fraternities, as well as an opportunity to see Boston before school starts. In general it is difficult to join a fraternity once Rush Week is over. For

a more complete explanation of rushing and the fraternity system we refer you to the booklet *Fraternities at M.I.T.*, sent to all freshmen by the I. F. C.

Many fraternities have started collections of classical and semi-classical records and libraries of current books and publications. The chapters occasionally go in large groups to symphonies, plays, and the like. In many houses, there is the practice of having interesting people from the Institute come to dinner during the week.

By nature, the fraternity is an organization which can assist tremendously in one particular phase of education unattainable through formal classroom study: the development of the individual. The closeness and small size of the living groups provides deep and lasting friendships and eases the abrupt transition from home to college life. Through regular organized social activity and through living within a close and harmonious atmosphere, a sense of adaptability, poise, and social grace is developed in the individual.

INTER-FRATERNITY CONFERENCE

The Interfraternity Conference is the organization which binds together the twenty-eight fraternities at M.I.T. Its purposes are three-fold:

1. To promote the interests of M.I.T. and its fraternities.
2. To formulate policies designed to raise the scholastic, social, and physical standards of the Institute fraternities; further social contact and closer acquaintances among fraternity members; and encourage cooperation and solidarity in the fraternity body as a whole.
3. To represent a fraternity body and assume appropriate responsibility for it in its relations with the administration of the Institute and all other groups.

One of the most important activities of the Conference is the annual I.F.C. Weekend, similar to the Junior Prom Weekend but held entirely by the I.F.C. and planned for fraternity residents.

The business of the I.F.C. is conducted at monthly dinner meetings attended by the president and one elected representative of each fraternity. Technology's I.F.C. sends two representatives to the annual meeting of the National Interfraternity Conference.

M.I.T. STUDENT HOUSE

Student House is a cooperative living group, established at Tech more than twenty years ago. Located in a large house in Boston (within easy walking distance of classes), it has ample room for our thirty-odd members. The House affords a beautiful view of the Esplanade and the Charles River and is the scene of several dances and parties during the year.

As the name cooperative implies, the house keeps living

expenses low by assigning household tasks to residents—everything in fact, but the cooking. Student House is ideal for the student who genuinely needs financial help.

All inquiries should be addressed to the House President at 111 Bay State Road, Boston. Phone CI 7-8407.

NON-RESIDENT STUDENT ASSOCIATION

Any undergraduate student not living in the dormitories and not affiliated with a fraternity is by virtue of his residence with parents, relatives, or guardians, or his residence in an apartment, a member of the N.R.S.A.

The organization maintains its facilities in the newly acquired, fully furnished building at 318 Memorial Drive. Lounge areas for relaxation are complete with a television, hi-fi radio phonograph, piano and comfortable furniture. Fully equipped study areas, eating and kitchen conveniences, showers, and a bunk room for overnight contingencies are some of the prominent features provided in the N.R.S.A. center. A graduate student is full-time house Resident.

Around this nucleus of facilities revolve the social, athletic, and scholastic programs offered by the N.R.S.A.

WOMEN STUDENTS

Many a freshman, on meeting his section for the first time, is surprised to discover there's a girl in the group. Yes, there are coeds at M.I.T.! While there may be only one in your own section, you'll be seeing quite a few of them walking through the halls and attending lectures since there are altogether some one hundred girls studying here. In spite of being able to chatter freely about physics and chemistry, they are pretty much like girls at any college—and can be mighty pleasant to have around. Find out for yourself by talking to one!

The girls are active in most organizations throughout the Institute. Their formal organization is the Association of Women Students which sponsors exclusively coed projects, as well as teas and open houses for the whole school.

Center for all this activity is the Margaret Cheney Room, a suite including kitchen, bedroom, study, lounge and locker facilities. Set aside as a feminine retreat, it becomes a second home for the girls.

McCORMICK HALL

This year's coeds will be the first to move into a brand new women's dormitory, complete with dining room, lounges, parlors, guestrooms, penthouse, and sundeck. The new residence is conveniently located near Kresge Auditorium and the main educational group. An outstanding asset is the large proportion of single rooms.

ATHLETICS

The M.I.T. physical education, intercollegiate, and intramural programs are organized under the joint cooperative leadership of students, faculty, and alumni.

The physical education classes are the responsibility of the teaching staff. Recreation, in the broad sense of the word, is the underlying philosophy of the program. Particular stress is given to sports activities that will carry over to enjoyment of leisure time in later life.

The intercollegiate program in 18 different sports affords competition for those men interested in developing proficiency through a team effort. M.I.T. takes pride in the accomplishments of the many teams that represent the Institute. There is no admission charge for any M.I.T. athletic contest.

The intramural program is student-run and is dependent upon the student residence organization for its effectiveness. Many dormitory and fraternity men at the undergraduate and graduate levels participate throughout their careers at the Institute in the competition afforded within the intramural organization. Contests are held in touch football, softball, tennis, ice hockey, bowling, volleyball, swimming, track, basketball, squash, and table tennis.

The Athletic Association is responsible for the student administration of M.I.T. athletics through the Athletic Association Executive Committee, team captains, and intercollegiate and intramural managers. The Athletic Association Executive Committee meets weekly with the Director of Athletics to discuss policy having to do with the organization and management of the intercollegiate and intramural and athletic club programs. Overall jurisdiction of M.I.T. athletics is the responsibility of the M.I.T. Athletic Board, which is drawn from the A.A. Executive Committee, faculty and alumni.

To qualify for eventual membership in the Athletic Association, a student must work up to a position of team captain or manager. In either case, management ability is looked for and attention to administrative detail is requisite. The privilege of head management positions on teams or in the Executive Committee is given to men who by their performance show the ability to assume responsibility. If you should seek one of these management posts, you should realize the difference in responsibility and participation at the secondary school and collegiate levels. As a team manager at M.I.T., you will be administering a large portion of the funds budgeted to your sport, the proper scheduling of transportation, and the effective use and maintenance of equipment. The leadership of a captain or manager is most likely to be the tie that binds the team, coach, and Athletic Association into a successful working unit.

The principal leadership in athletic activities includes the following:

Director of Athletics, ROSS H. SMITH

Intramural and Club Adviser, JOHN S. MERRIMAN, JR.

President of the Athletic Association, JAMES E. ALLEN, JR., '64

Varsity Vice President, HENRY J. MODETZ, '64

Intramural Vice President, JOSEPH L. KIRK, '64

Club Vice President, STEVEN W. BROSTOFF, '64

T-Club President, KIM C. M. SLOAT, '64

Recorder, WILLIAM R. BRODY, '65

Publicity Manager, HENRY J. RACK, '64

VARSITY SPORTS

BASEBALL

Coach: JOHN G. BARRY

Baseball ranks high in student interest from the first crack of the bat early in March until the final inning late in May. The varsity and freshmen teams play their home games on Briggs Field. M.I.T. competes in the very strong Greater Boston League comprised of Harvard, Boston College, Boston University, Tufts, Northeastern, and Brandeis. The team also takes an annual Southern trip during spring vacation where they play games in the Washington, Baltimore, and New York areas.

BASKETBALL

Coach: JOHN G. BARRY

Freshman Coach: ARNOLD H. SINGAL

Basketball has been one of M.I.T.'s most successful sport programs during the past few years. The team has had three winning seasons in a row (11-8, 17-4, 14-8) and hopes to carry on in the same manner next season. The team makes trips to Canada, Baltimore, Washington, and the Midwest. Typical opponents include Harvard, Wesleyan, Bowdoin, New Hampshire, Trinity, and Coast Guard Academy.

CREW

Head Coach: JACK H. FRAILEY

Coaching Staff: R. ERICKSON, G. ZWART, R. RESCH

Within the past decade M.I.T. has had many successful crews. In 1954 and 1955 the varsity lightweight crews won the Thames Challenge Cup in England at the Henley Royal Regatta. In the 1960-61 and 1962-63 seasons the varsity heavyweight crew placed third in the Intercollegiate Rowing Association Regatta at Syracuse. The 1961 freshman lightweight crew became the freshman national champions of the Eastern Association Rowing Colleges Regatta at Lake Quinsigamond, and the 1962 varsity lightweight crew tied for first to earn a trip to England where they came in second in the Thames Challenge Cup. Varsity, junior varsity, and freshman eights, both

lightweight (155 pounds) and heavyweight, compete with the top rowing powers in the nation.

The crew practices during most of the academic year, providing ample opportunity for newcomers to learn this sport. The formal season opens in late April and normally includes six or seven races. The boathouse is located about a mile up the Charles River from Massachusetts Avenue, near the Boston University Bridge.

CROSS COUNTRY

Coach: ARTHUR E. FARNHAM, JR.

Freshman Coach: GORDON V. KELLY

Cross country is one of the leading fall sports at M.I.T. This is a team sport distinct from track and field, although many track men participate to realize the great benefit to be derived from long distance running. The cross country schedule includes competition with Tufts, Northeastern, Coast Guard, Bates, Williams, Springfield, Boston College, Wesleyan, and the University of New Hampshire for Eastern and New England championships.

FENCING

Coach: SILVIO N. VITALE

Freshman Coach: CONSTANTINE ARVANITES

M.I.T.'s fencing teams have demanded respect in Eastern fencing circles for years. The present coach is a former international three-weapon champion. Representatives of the team compete annually in the Eastern and National Intercollegiate meets.

GOLF

Coach: JOHN S. MERRIMAN, JR.

The golf team is now in full swing, with about eighteen intercollegiate matches being scheduled. The season runs from the middle of April until the close of school in June, with M.I.T. playing most of the New England colleges. The team is chosen on the basis of elimination matches played by applicants in the early spring before the intercollegiate season begins. An effort is being made to encourage a more extensive fall golf schedule, and at present the varsity plays four dual matches plus the E.C.A.C. championship each fall.

HOCKEY

Coach: BENJAMIN R. MARTIN, JR.

Freshman Coach: ROBERT FRINK

The "fastest game in the world" is played on Tech's artificial ice rink on Briggs Field. Competition is furnished by a number of the leading small college sextets in the East.

LACROSSE

Coach: BENJAMIN R. MARTIN, JR.

Freshman Coach: WILFRED R. CHASSEY

Lacrosse was first introduced to the M.I.T. campus in the late 1920's and has remained a very popular sport ever since. The season runs from March until May and both the varsity and the freshman squads get to play some of the foremost teams in the nation. The highlight of the last few seasons has been a trip south during spring vacation. Lacrosse offers an excellent opportunity to learn a new sport since almost the entire team has never played before entering Tech.

PISTOL *Coach:* ROBERT E. DURLAND

Pistol has been a varsity sport since its inception at Tech in 1939. The team competes in intercollegiate shoulder-to-shoulder matches and in the Greater Boston Pistol League, State, and National championships. The season runs from October through April, and all students are welcome at the pistol range.

RIFLE *Coach:* SERGEANT ELLIS F. LEAMER

For many years the rifle team has enjoyed outstanding success. It has won the New England championship for two successive seasons and, during its annual southern trip between semesters, has defeated some of the nation's top teams. A schedule of freshman matches insures continued replacements for the graduating members of the varsity. In addition, anyone who has an interest in the sport and little or no experience may avail himself of the competent coaching at the range.

SKIING *Coach:* WILLIAM S. MORRISON

Freshman Coach: JENS E. JORGENSEN

M.I.T. is a member of the New England Intercollegiate Ski Conference. During the 1961-62 season, as a result of winning the N.E.I.S.C. championship, the M.I.T. ski team was invited to compete in the Eastern Intercollegiate Ski Association competitions. Continued participation in the latter will depend on the success of the M.I.T. ski team in the future. Freshman competition is arranged among New England prep schools and college freshman teams.

SOCCER *Coach:* CHARLES BATTERMAN

Freshman Coach: WILLIAM S. MORRISON

An international sport, soccer is attracting an increasing number of foreign students at Tech in addition to the local talent. Well versed in the fundamental skills, our teams have shown excellent style and ability against such powerful Eastern teams as Amherst, University of Connecticut, Springfield, etc. A season from September through November is planned for this year with practice starting immediately after

school opens in the fall. All interested are invited and urged to come out for the team.

SQUASH *Coach:* EDWARD A. CROCKER

Freshman Coach: ROBERT HODGES

Squash is a winter sport in which a newcomer can become a proficient player after a few months of experience. M.I.T. has an excellent intercollegiate schedule which consists of the Ivy League colleges, Army, Navy, and the little three (Amherst, Williams, Wesleyan) plus one or two independents, such as McGill and Trinity. In addition to regular intercollegiate competition, the varsity squad has A, B, C, and D five-man teams entered in the Massachusetts Squash Rackets Association leagues and the freshman squad has a team in the "D" league.

SWIMMING *Coach:* CHARLES BATTERMAN

Freshman Coach: DAVID S. MICHAEL

M.I.T. is fortunate in having one of the most modern and best equipped swimming pools in the country. It is open to students and other members of the Institute community every afternoon and most evenings. Special nights are set aside for women and mixed swimming.

There is a full intercollegiate schedule of dual meets, for both varsity and freshmen, including participation in the New England Intercollegiate Swimming Championships which are held periodically in the Alumni Pool. Anyone interested in swimming should report to one of the coaches at the Alumni Pool.

TENNIS *Coach:* EDWARD A. CROCKER

Freshman Coach: GEORGE W. DAVIES

Tennis is a popular sport at M.I.T., and both varsity and freshman teams have traditions of winning seasons against strong opponents. Incoming freshmen are encouraged to take part in a freshman tournament which is held in the fall of each year. The varsity team has informal practices three days per week in the fall, in order to select players to make the very popular southern trip which takes place during the spring vacation period of each year. Both varsity and freshman teams are selected by means of a tennis ladder on which a player may challenge up to two above in order to move up on the individual rankings.

Six fast drying Har-True courts for varsity matches and eight Lakold courts for freshman use give M.I.T. one of the finest tennis facilities in the East.

TRACK *Coach:* ARTHUR E. FARNHAM, JR.

AND *Freshman Coach:* GORDON V. KELLEY

FIELD The availability of excellent indoor and outdoor facilities

at M.I.T. makes track and field a very popular sport during the winter and spring seasons. Interest has grown in recent years due to the increase in intercollegiate competition with such opponents as Boston College, Bowdoin, Harvard, and Columbia, among others. In addition, M.I.T. is represented in the large indoor relay meets in Boston Garden as well as the championship meets—Greater Boston, Eastern, and New England.

WRESTLING

Coach: WILFRED R. CHASSEY

Freshman Coach: GEORGE W. DAVIES

One of the fastest rising and most popular winter sports at Tech is wrestling. Because of the sudden rise in popularity, Tech has been able to place an exceedingly competent squad on the mats in the past few years. Several Techmen, in fact, have won New England championships.

INTRAMURAL SPORTS

The aspect of M.I.T.'s athletic program which affects most students is the intramural athletic program. During the year, more than two-thirds of the undergraduates participate in intramural contests. This high percentage is due to the program's expressed purpose of providing every member of the M.I.T. community, from fraternity man to dorm man, the opportunity to compete on an organized basis in as many of the different sports as possible.

The following seventeen sports are now included in the program: touch football, cross country, basketball, softball, hockey, wrestling, volleyball, swimming, bowling, tennis, sailing, track, golf, badminton, squash, table tennis, and rifle. Trophies are awarded to champions in each sport, and they are highly prized by the members of all living groups. An All-Sports Trophy is awarded at the end of each year to the living group which turned in the best over-all performance.

The most unusual aspect of the program is that it is entirely student-run through the Intramural Council, a body composed of the student managers of each sport and headed by the Athletic Association Intramural Vice President. These managers control scheduling of games, arranging for referees, settling complaints, and all other aspects of the program.

ATHLETIC CLUBS

CRICKET CLUB

Cricket is as popular in England as baseball is in the U.S. M.I.T.'s Cricket Club attracts a large percentage of its members from the foreign students, both graduates and undergraduates. Occasionally games are scheduled with the Harvard club, while more informal games are arranged on Briggs Field.

FENCING CLUB

M.I.T.'s excellent facilities have made fencing a very popular sport, both on an intercollegiate level and on an informal basis. The Fencing Club attracts faculty members, graduate students, and undergraduates to its weekly practices. Meets with the clubs at Harvard and Brandeis are arranged every year.

PISTOL AND RIFLE CLUB

Pistol and Rifle Club enables those interested in these sports to continue shooting out of season. They fire three nights a week at the M.I.T. ranges, with weapons and the first case of ammunition supplied free. Membership in the club, run solely by undergraduates, is open to all members of the M.I.T. community. Student coaches are available for those with little or no experience.

RUGBY CLUB

The American game of football evolved from this popular and exciting English game. The M.I.T. Rugby Club competes each fall and spring with such schools as Harvard, Yale, and Princeton. While rugby is primarily a graduate activity at M.I.T., the club nevertheless welcomes undergraduates who are interested in the sport. As the club is not a member of the M.I.T.A.A., it attracts many men who are ineligible to compete in other intercollegiate sports.

SAILING

The M.I.T. Nautical Association is an unusual organization devoted to providing sailing opportunities to as many members of the Institute community as possible. In addition to the most popular physical education course, beginning sailing, it sponsors both varsity and intramural competition.

Experienced sailors may check out boats from the Tech fleet for leisure-time sailing. The only requirement is membership in the Nautical Association, for which there is a modest annual fee.

WATER POLO

Water Polo is a popular sport on the East Coast because of its fast and interesting action. Those interested meet Tuesday and Thursday nights at the Alumni Pool to practice for a schedule including St. Francis, R.P.I., Army, and Yale. Although graduate student participation is especially en-

couraged, the club welcomes all undergraduates regardless of experience.

WEIGHTLIFTING CLUB

The growing popularity of this sport across the nation is reflected in Tech's active and ambitious Weightlifting Club. Although extensive intercollegiate competition is still in the planning stage, M.I.T. lifters have achieved distinction in the All-New England Meets. The expanded facilities in the du Pont Athletic Center have resulted in sharply increased activity. Weightlifting offers great opportunities both for development and competition. The coaching staff is always glad to instruct new men in the fundamentals.

AROUND M.I.T.

Entering freshmen (as well as many of their upperclass counterparts) are too often unaware of the unparalleled variety of services which the Institute makes available. This section is designed to help remedy this situation by providing a handy reference to the more commonly used facilities.

ADMISSIONS

This is one office with which every student entering M.I.T. has had some contact. For this reason many students first turn to the Admissions Office for assistance. In fact, the admissions officers welcome the opportunity to talk with M.I.T. students about anything that is of interest to the students.

The main job of the Admissions Office goes without saying—that of acting upon first-year applications and upon college transfer applications at the undergraduate level. Secondly, the office provides a public relations service by visiting high schools and prospective students.

The problems of admission and guidance of foreign students are of special importance. Professor Paul M. Chalmers is Adviser to Foreign Students. As such, he is in charge of the admission of foreign students and acts as their counselor after they get here. Also, the Admissions Office receives and posts notices concerning opportunities for American students to study abroad. An example of this is the Fulbright Scholarships.

Professor Roland B. Greeley is the Director of Admissions. The offices are located in Room 3-108.

ATHLETIC EQUIPMENT DESK

Located in the duPont Athletic Center, this facility is considerably more than its name implies. "Murph" and his staff can restring your rackets, sharpen your skates, and, in general, fill your equipment needs.

AUDIO-VISUAL SERVICE

Public address equipment, tape recorders, and projectors are available for personal use at moderate rentals from the Audio-Visual Service, Room 3-003.

BURSAR'S OFFICE

One of the best known offices of the Institute is the Bursar's Office, Room 4-106. The Cashier's Office, 10-180, is where we pay all our bills, buy stamps and cash checks. At the nearby student deposit office you may deposit up to \$1,000 for safe-keeping and cash withdrawal at not more than \$50 per day. Travelers checks may be purchased in Room 4-103. The Bursar's function is finance; thus if a student has a financial problem of any kind, the Bursar is the man to see. Note that the Cashier's Office and Personal Deposit Desk are open from 9 to 2 daily, not including Saturdays.

CAMPUS PATROL

The campus police force, located in Building 20, Wing E, provides a complete protective service for the Institute com-

munity. Their activities range over a wide field and include such services as helping you to trace a lost wallet and giving you a parking ticket. In occasional contrast to the municipal police, however, the Campus Patrol has your interests at heart and have often proved helpful in emergencies.

**M.I.T.
CHAPEL**

The chapel is open to group use as well as for individual meditation and organized religious services. To make reservations, call extension 4861.

**DEAN'S
OFFICE**

Probably most incoming M.I.T. students figure that the Dean's Office is one of the last places with which they want to come in contact during their stay at the Institute. But take it from us who have been here for a while—the Dean's Office is one of the most friendly and helpful places around the school. The main job of the Dean's Office is to be of assistance to the student in any way possible. As such the Deans are always ready to listen to anything from home troubles to "why I hate my professors."

Dean of Student Affairs Kenneth Wadleigh presides. Dean William Speer is in charge of counseling; he is the person that most students with troubles talk to first. He has the reputation among students of being a very good listener. Dean Robert J. Holden, Associate Dean, is the one you will find most helpful this first year. Dean Frederick G. Fassett, Jr., is in charge of housing; anybody with troubles along these lines should see him. Dean Jacquelyn Mattfeld, Associate Dean, has primary responsibility for the needs of women students and in addition is helping to develop future academic and extra-curricular programs of special interest to women.

The Dean's Office (Room 7-133) is the first door on the left when you come in M.I.T.'s main entrance at 77 Massachusetts Avenue; Dean Fassett's Office (Room 7-104) is on the left side of the main corridor leading out of the entrance lobby.

**ENDICOTT
HOUSE**

Endicott House, the M.I.T. estate in Dedham, is available to anybody for almost any function (they do frown on beer parties); to make reservations, call extension 4898.

**GRAPHIC
ARTS
SERVICE**

The Institute maintains a Graphic Arts Service for the benefit of all members of the M.I.T. family. Its services, many and varied, are available for personal as well as Institute work.

M.I.T.'s Graphic Arts Service does most of its work at 211 Massachusetts Avenue but maintains an order counter and copy machines for while-you-wait service in the main buildings (Room 3-003). Facilities include an Illustration Division which can produce original diagrams for reports, journals,

and theses and can also prepare charts, posters, slides, and air brush renderings.

The Letter Shop Division offers typing of reports, theses, papers, etc. Mimeographing, mailing, and automatic typing are done. Special mailing lists are maintained.

Other services include a portrait, passport, and identification studio; photographic studios and laboratories, photostat, ozalid printing and an extensive offset printing plant.

The Graphic Arts Service specializes in reproductions for theses; consult them before preparing your originals.

MEDICAL DEPARTMENT

To keep the M.I.T. student on his feet, the medical staff treats everything from ingrown toenails to cases of mononucleosis. The staff includes about 35 doctors working in the various departments. Staff physicians are on duty Monday through Friday from 8:30 a.m. to 5 p.m. in Building 11. An infirmary equipped with 21 beds is located on the third floor and is open (except in July and August) 24 hours a day for any student needs.

The Medical Department offers other services in addition to routine medical care. Psychiatric counseling is available and is free for the first four interviews in any one school year. The second floor of Building 11 contains the Occupational Medical Service which helps to protect M.I.T. personnel from radiation, chemical, and sanitary hazards.

No charge is made for routine ambulatory medical care, and charges for clinical work and for care in the infirmary are moderate. But most students take out Student Medical Insurance, which pays the entire cost of medical care up to \$1,000 and 80 per cent of any remaining cost up to a total of \$8,000 (except for certain limitations specified in the leaflet about the program which goes to each student with his registration materials). The premium is \$70 per year for single students, \$165 for married students without children, and \$195 for married students with children.

Dr. Albert O. Seeler is the Medical Director; Dr. Harriet L. Hardy, Director of the Occupational Medical Service, acts as advisor to premedical students at the Institute.

INFORMATION OFFICE

This office is just what the name implies. Information of all kinds is available here, if anywhere. The service is located in the main lobby of Building 7.

LABORATORIES AND SHOPS

The following is a list of some of the laboratories and shops available to students for extracurricular work. Information concerning the use of the shops or labs in a department not listed here may be obtained by inquiring in the department's headquarters.

The foundry or welding laboratories may be used only in the presence of an instructor during hours arranged by appointment. The foundry (Room 35-419) may be used after contacting Mr. Paul Hughes in Room 35-306. Mr. William Moffatt (Room 35-439) controls the welding lab in Room 35-425.

The induction-melting facilities in Room 8-010 may be used only by metallurgy men for an approved project. The project must be approved by either Professor Thomas B. King or Professor John F. Elliott. Work may be done only under the supervision of Mr. F. Haynes.

Metallurgy students may use the machine shop in Room 8-029 from 9 a.m. to 5 p.m. They must first demonstrate proficiency in use of the machines and then work only on a suitable project. Professor King must approve use of the machine shop.

The Building Materials Laboratory (Room 5-008) and the Plastics Laboratory (Room 20D-004) may be used by any qualified student for an approved project in the presence of an instructor at the hours arranged by the student. Professor Albert G. H. Dietz must be contacted for using the Building Materials Laboratory and Professor Frederick J. McGarry for the Plastics Laboratory.

LIBRARIES

The M. I. T. Library system is composed of several distinct units which contain a total of about 600,000 volumes, so it is good to have an idea of the general layout before you start browsing or searching in earnest for Aristotle's *Metaphysics*.

The General and Humanities Library, on the second floor of Hayden Memorial Library, is the administrative center of the library system. There you can find the collections in philosophy, religion, social sciences, history, literature, and biography; rare books; references and bibliographic resources; technical reports; and the union catalogue, with cards on every book in the library system.

The Rotch (rhymes with "coach") Library, in Building 7 on the second floor, contains the collection on architecture, city planning, building materials and construction, and pertinent fine arts literature.

The Dewey Library, located in Building 52, holds the principal collection of books and periodicals in economics, business administration, industrial management, industrial relations, psychology, sociology, and related fields.

The Great Dome houses the Engineering Library. This includes books on civil, electrical, and mechanical engineering, textiles, and naval architecture and marine engineering. A sub-division is the Aeronautics Library in Room 33-316.

The Science Library in the Hayden building holds both

books and periodicals on mathematics, physics, chemistry, biology, nutrition, food science, chemical engineering, nuclear engineering, ceramics, geology, metallurgy, and meteorology.

Also in the Hayden building are the Reserve Book Room with generous study tables and the Music Library with books, scores, and records.

Other facilities of special note are a map room, a projection room for 16mm pictures, and the microreproduction laboratory for making and using microfilm (Room 14S-051).

Regular term-time hours for the various libraries are:

	<i>Mondays through Fridays</i>	<i>Saturdays</i>	<i>Sundays</i>
Aeronautics and Astronautics	9 to 5	9 to 1	—
Dewey	9 to 11	9 to 5	2 to 11
Engineering	9 to 9	9 to 6	1 to 6
General and Humanities	8 to 10:45	8 to 9	1 to 10:45
Music	9 to 10:45	9 to 6	1 to 9
Reserve Book Room	8 to 1 a.m.*	8 to 6	1 to 1 a.m.
Rotch	9 to 10	9 to 4	—
Science	8 to 10:45	8 to 9	1 to 10:45

*Except Friday, when the hours are 8 to 10:45

All libraries are closed on Labor Day, Thanksgiving, Christmas, New Year's Day, and the Fourth of July. Special schedules are in effect during Institute vacations and during the Summer Session.

MICROFILM SERVICE

The Microreproduction Service (14S-0551) produces both microfilm copies and photocopy prints for students and all others who require them. Microfilm is four cents per exposure, with a minimum order charge of \$1. Photocopy prints, ideal for reproduction of drawings and graphs for papers, are 25 cents each, again with a minimum charge of \$1. Although this service normally takes three days, in cases of crisis the Service will do the work in 24 hours, charging 50 per cent extra for such service.

OFF-CAMPUS HOUSING AGENCY

You do like peace and quiet! You are married! You do like landladies! You need off-campus housing. Contact the Housing Agency in Room 7-102. There are listings of accommodations from \$7-a-week apartments to \$30,000 homes; but most listings are rooms, generally near Harvard or in Boston, for \$8 to \$10 a week for single or about \$15 a week for double. This service is offered at no charge to anyone from Dr. Stratton to John T. Student to the Irish Consul, who actually came in once.

PHYSICAL PLANT

M.I.T.'s buildings and equipment are valued on the books at over \$50 million. There are acres of windows and 18 miles of corridors and thousands of square feet of offices and labora-

tories to keep clean, 2675 fire extinguishers to recharge, mail for a city of 20,000 to distribute; the Institute uses 13 million paper towels, nearly 2.5 million gallons of fuel oil, 485 million gallons of water, and 31 million kilowatts of electricity every year. These are all the responsibilities of Physical Plant, which takes care of building operation, power, utilities, grounds, cleaning, mail, receiving and shipping, moving, construction, and design and drafting. The Superintendent's Office, Room 24-117, operates a post office and handles mail, keys, and lost and found.

PUBLIC RELATIONS

The Office of Public Relations, located in Room 3-339, is responsible for the Institute's relations with newspapers, magazines, radio, and television, including participation in the education activities of WGBH. It publishes *The Calendar of Events*, *The Observer*, *M.I.T. Reports on Research*, and *Tech Talk*. The office is available for help at a counseling level on any problems that students or student organizations may have in promotional activities or relations with the press, radio, or television; Francis E. Wylie is director. The associated Office of Publications is available for help on preparing printed material.

REGISTRAR'S OFFICE

Located in Room 7-142, the Registrar's Office is the place to go for schedule changes, changes in courses, petitions, and transcripts.

SELECTIVE SERVICE ADVISER

Located in Building 20, Wing C, this office is one which nearly everyone visits sooner or later. Mrs. Lutz, the adviser, is always glad to help you in your relations with your draft board, but see her early.

STATISTICAL SERVICES

Statistical Services with its IBM machines and tabulating equipment exists as a service to other departments in the Institute, particularly for bookkeeping and financial work. The Records Processing Section of the Registrar's Office uses similar equipment for handling student records. For the student, R. P. S. can compile lists or address envelopes to students by class, course, or the entire student body.

STUDENT PERSONNEL OFFICE

Do you want a job? The Student Personnel Office in Room 1-380, directed by William H. Carlisle, is the easiest place to find one. (You have to apply for the job with your prospective employer yourself.) While they don't hire you, they have listings of part-time jobs within the Institute as well as outside M. I. T. The job openings within the Institute range from the student staffs to laboratory, library, and physical plant jobs. The jobs outside M. I. T., which comprise approximately

half the jobs listed, include taxi driving, tutoring, drafting, and programming.

The Student Personnel Office also has lists of summer jobs available. These include jobs within the Institute as well as in light industry, hotels, and summer camps.

Working closely with the Dean's Office and student advisers, the Personnel Office is glad to advise on job application techniques, hours, people to see for jobs they don't have listed, etc. The Office maintains a file of all students and alumni who have obtained jobs within the Institute. This file, often referred to by the student's prospective employers after his graduation, contains the jobs held as well as an evaluation of the student and his work.

While the Student Personnel Office is the first place to look for a job, some of the departments and the individual professors hire their own help. The Student Personnel Office or the headquarters of the department are the best places to inquire about such jobs, which seem to be mostly laboratory work.

STUDENT AID CENTER

The Student Aid Center was organized by the Institute several years ago for the administration of various forms of financial aid. The office deals with all undergraduate scholarships, including entering freshman scholarships, the allocation of grants from the Technology Loan Fund of \$100,000 which is open to all students, and the use of part-time campus jobs as financial aid. Applications for scholarship aid are issued in January of each year for the next academic year and are generally filed by late January. In general, undergraduate scholarship awards are announced early in July. Requests for aid from the Technology Loan Fund have no fixed receipt date. Students are encouraged to come to the office to discuss any financial problems at any time during the year.

GIRLS' SCHOOLS

The Social Beaver welcomes you to the greatest assortment of colleges and college students anywhere. There are three main ways to meet women — by yourself, through friends, and at mixer dances. Of these, the last is by far the easiest. In the fall there are many acquaintance dances, open houses, and teas. We suggest you take full advantage of these opportunities, for they provide an easy and inexpensive means of meeting fun-loving young women of fine calibre. Watch the campus bulletin boards for announcements, but don't rely on them. Publicity is often scanty and frequently the dances are theoretically, but only theoretically, by private invitation. In all probability the gals won't even think of turning you away, and they seldom check invitations at the door anyway.

Not to be forgotten are the various youth groups connected with many religious organizations and churches (especially those around Harvard). Yet another plentiful source is the many girls from other schools who take part in the extra-curricular activities at Tech, such as M.I.T.O.C., Tech Show, and Dramashop.

To those unacquainted with hours at a girls' school, a warning: the hours are the exact maximum limits and not an approximation of when to return. These hours are strictly enforced and violations are severely punished. It may seem like a bother, but it must be considered when making plans. Therefore, give yourself leeway for unexpected traffic or late buses.

For information about plays and concerts around Boston, contact the T.C.A. They offer a free service in obtaining tickets (this can require know-how) to these functions.

Remember this FUNDAMENTAL PRINCIPLE: GIRLS WANT TO BE MET. If you will only take a little ambition in making their acquaintance, your dateless weekends will be few. Happy hunting!

LARGER COLLEGES

RADCLIFFE COLLEGE Cambridge

Although Radcliffe (*see the map on the next pages*) has the reputation in the environs of Boston as the Harvard annex, let not this discourage any ambitious Techman; accept this as a challenge. The girls may have the same educational opportunities and may be indoctrinated with the Harvard spirit, but not all of them have absorbed that awesome intellectuality. Generally speaking, a successful trip up past Harvard Square will reap great dividends. Radcliffe girls are above the average in quality.

The campus is only a ten-minute M.T.A. ride from the Institute and is very convenient for all Tech functions. Radcliffe has a full schedule of social events which lean a little to

the formal side. Of special interest during the first term are the tea dances and mixers.

Radcliffe, along with Wellesley, is most notorious for not publicizing mixers. The inside dope is that Radcliffe undergrads have what they call "Jolly-Ups," i.e. mixer dances, on weekdays during the first three or four weeks of each semester, each dorm having a separate dance, though two may coincide. Best bet is to call an individual dorm and ask the girl who answers when their Jolly-Up is scheduled.

Radcliffe hours are the most liberal in the area. The freshmen have a limited number of one o'clocks during the first term. Sophomores have unlimited one o'clocks, and juniors and seniors have no restrictions.

RADCLIFFE TELEPHONE NUMBERS

The switchboard closes at 10 p.m. weekdays, 11 p.m. on Sundays; however, some dorms close the switchboards on Sundays. All of the girls have their own phones.

WELLESLEY COLLEGE Wellesley

Wellesley is one of the largest girls' schools in the area and an extremely popular one with M.I.T. Although it is true that Wellesley girls seem to be much of a kind, the school is large enough for variety.

The main drawback is that the beautiful campus is located 18 miles out on Route 9 from Boston. Dating Wellesley girls without a car, or a friend with a car, is like swimming the channel. It might be possible, but few succeed. Watch out for heavy snowfall! Wellesley usually holds open mixers during two or three of the early Saturday or Sunday afternoons or evenings of each semester. You can probably find out the dates of all these crucial, little-publicized occasions by calling two or three different dorms and asking whomever answers about their mixer schedule (or ask to speak to the social chairman). These mixers are a veritable rat race where "cut-ins" abound, for they are packed with "tools" and "harvies." A far more enjoyable manner is to get a date from your fraternity brother or the boy down the hall. The popularity of the Wellesley mixers and the girls attests to their high calibre.

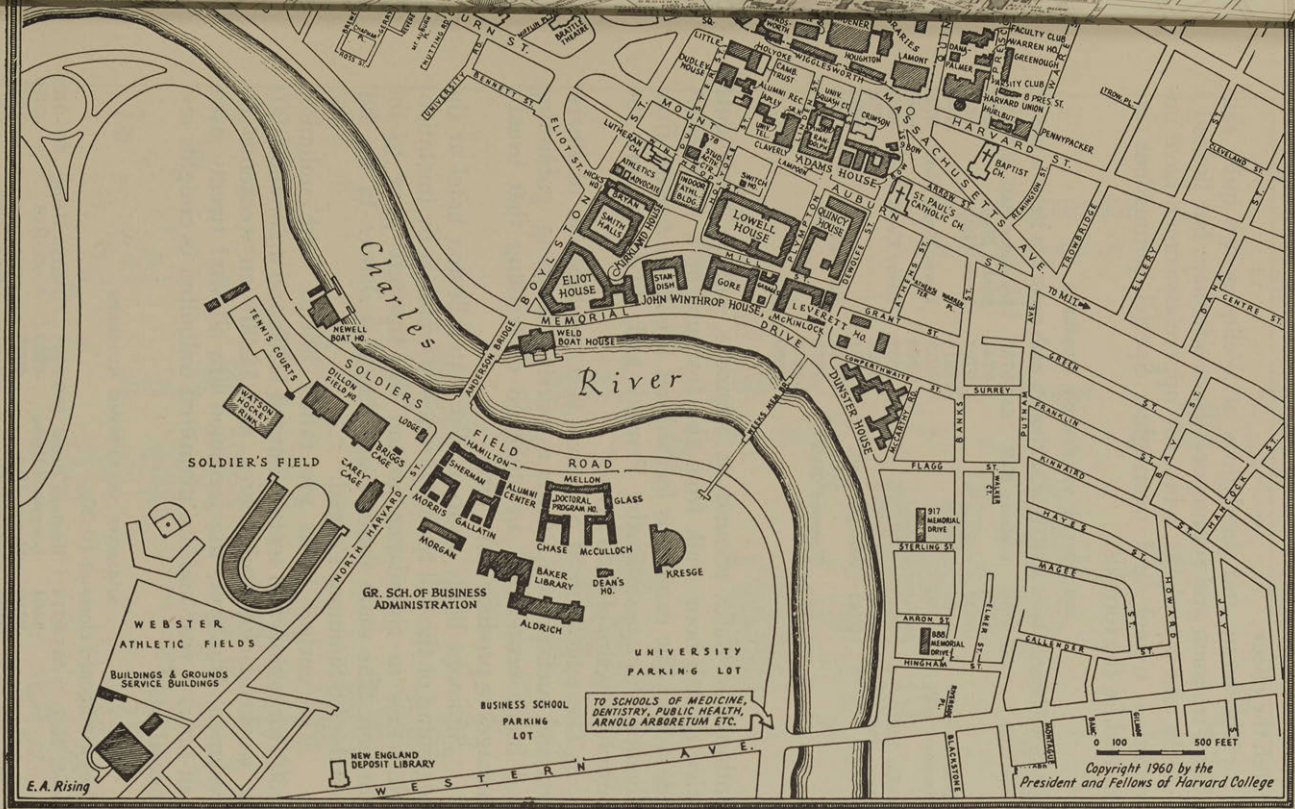

Generally, the girls are brought back to Boston for the evening; but places such as the "Rec Hall" and the "Well" are popular spots there. Ken's Steak House and the Meadows,

HARVARD UNIVERSITY

GIRLS' SCHOOLS

TO STILLMAN INFIRMARY

both on Route 9 in Framingham, are nearby for dinner; but watch the check.

The hours and regulations at Wellesley are quite sensible. Freshmen and sophomores have adequate but limited 1 o'clocks and overnights, while the upperclasswomen have unlimited 1 o'clock and overnights. Special permissions are granted for the formals.

WELLESLEY TELEPHONE NUMBERS

The switchboard closes at 10 p.m., although each room has its own phone.

SIMMONS COLLEGE The Fenway, Boston

Enthusiastic dates abound at Simmons, only a ten-minute drive or half-hour walk from the Institute or a short MTA ride away. The campus is located out Brookline Avenue from Kenmore Square near the Fenway and Riverway and the Boston Museum of Fine Arts.

The education at Simmons is a combination of liberal arts and such practical fields as nursing, teaching, publishing and home economics, an amalgam of training that usually manages to produce a fine girl.

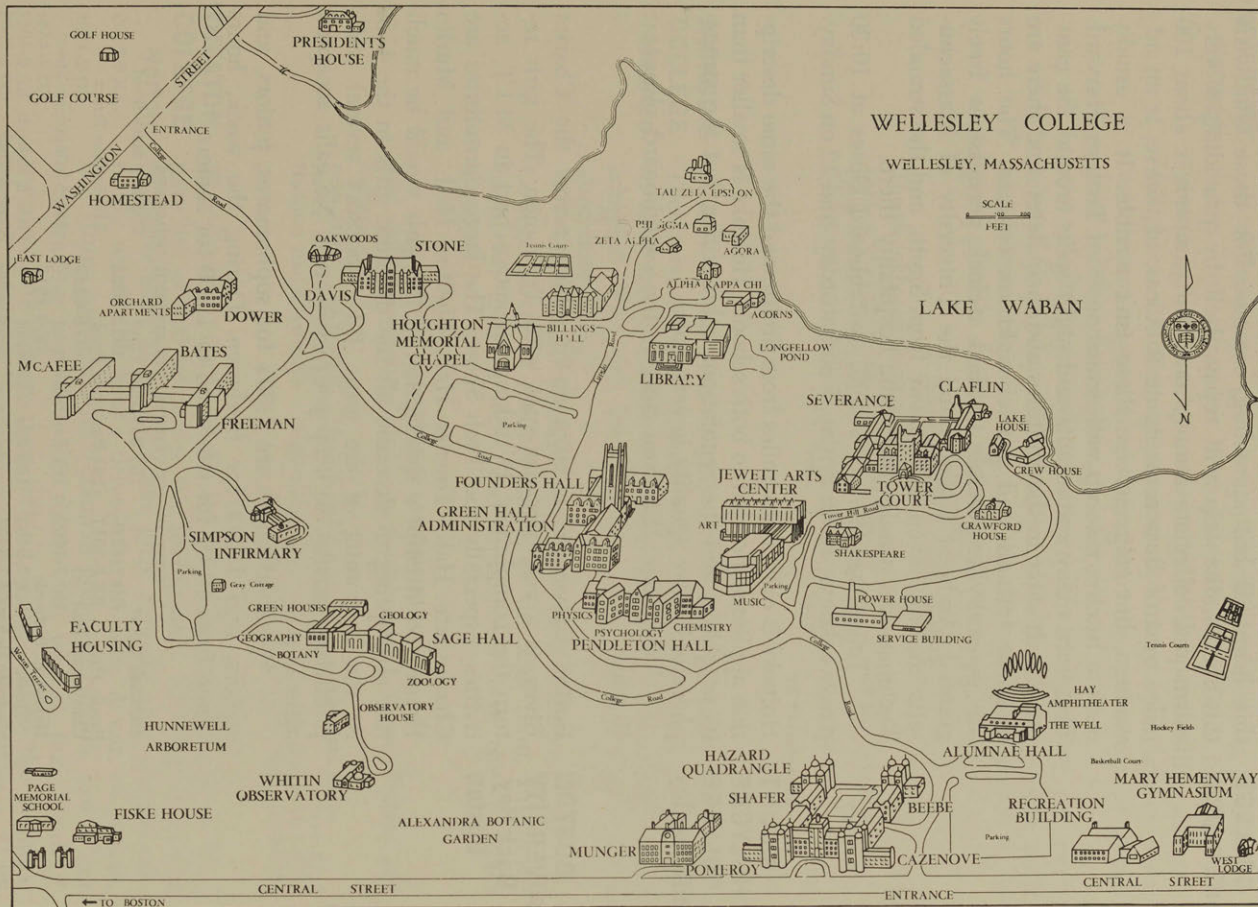

Simmons holds a mixer at a better Boston hotel at the beginning of the fall term, entrance to which is by invitations which are in abundance around the Institute prior to the function. The main formals are the class dances in the fall and the All-Simmons Formal.

The curfew hours are rather liberal, with unlimited 1:30's for juniors and seniors, limited 1:30's and unlimited 1:00's on weekends for sophomores, and 12:30's on weekends for freshmen. However, the freshmen are allowed twenty extra half-hours a year and are permitted unlimited overnights and special lates.

SIMMONS TELEPHONE NUMBERS

The switchboard closes at 10:30.

**SMITH
COLLEGE
Northampton**

More than 2,000 women live in the 44 scattered dorms on this beautiful but sprawling campus. For those who visit this school, the trip will repay itself by providing a very warm and collegiate atmosphere. Northampton is about 100 miles west of Boston on Route 9. A car, of course, is an advantage, but train service there isn't terrible. It is usually easy to hitch a ride up with someone from Tech or Harvard. There are many restaurants and night spots around the campus which cater to the Smithies and their dates; and there are frequent formals and parties right on campus. The hours are generally reasonable, with 1 o'clock permissions freely granted. Amherst College and the University of Massachusetts are only seven miles away from Smith, and the stranded Techman can usually find some hospitality there.

Telephone JUSTICE 4-2700; switchboard closes at 10:30 p.m. weekdays, 12 on Friday, 1 on Saturday, and 12 on Sunday.

**MOUNT
HOLYOKE
COLLEGE
South Hadley**

Holyoke is only a few miles from Smith, and the same description applies somewhat to both schools. Holyoke is smaller than its neighbor, and the regulations a bit stiffer, but the atmosphere is similar. Quality is very good.

Telephone JEFFERSON 8-8211; the switchboard closes at 10 p.m.

**BOSTON
UNIVERSITY
Back Bay,
Boston**

Boston University, a huge co-ed school across the Charles River, is a very popular spot with Tech men. The girls return the compliment by taking an active part in M.I.T. activities, especially the Tech Show. The large dormitories are Charlesgate Hall, Towers Hall, Shelton Hall, and Murlin House. To attempt a description of the girls would be much like attempting to describe all the different girls in the U.S. At the beginning of the term, B.U. sponsors several well-publicized mixers, so keep your eyes open. No calls accepted after 11 p.m.

Weekend hours are 1:30's for sophomores, juniors, and seniors, and 1:00's for freshmen. During the week, hours range from 10:00 for freshmen to 12:00 for seniors.

**BRANDEIS
UNIVERSITY
Waltham**

On the dwindling stream of the Charles lies Brandeis, a co-ed school featuring a predominant number of females. The young ladies from Brandeis who frequent the Tech campus are generally better than average in looks, personality, and intelligence. Brandeis sponsors many, many open houses, teas, and acquaintance dances throughout the entire year, so watch your bulletin boards for announcements.

There is always some sort of activity going on, even a weekly Sunday night movie. If both you and your date are interested and studious, the library at Brandeis is a great place to study; it is also good for meeting a new girl.

BRANDEIS TELEPHONE NUMBERS

The switchboard closes at 12:30.

**JACKSON
COLLEGE
Medford**

Jackson is the girls' liberal arts college of Tufts University. Tech men are very popular with the Jackson girls, even more so than the Tufts men (grass is greener on somebody else's campus). The girls are very fine young women who enjoy a good time dating.

Occasional open houses are held following an All-College Mixer at the beginning of the Fall term. Freshmen have two 1:30's a week and sophomores have twelve 1:30's a month.

JACKSON TELEPHONE NUMBERS

The switchboard closes at 11 on weekdays and 10 on Fridays and Saturdays.

**WHEATON
COLLEGE
Norton**

Thirty miles south of Boston is Wheaton College, a real paradise of 700 beautiful, fun-loving girls. Although it is not so convenient as many other girls' schools, this spot is certainly worth the hour's drive or train ride. A car, of course, is a strong asset for the Techman going to Norton, but is not a restricting necessity. For those with wheels, take Route 1 towards Providence, then left on Route 140 to the campus. By rail, take the Providence local to Mansfield, then a \$1.25 taxi ride to Wheaton.

If you don't want to come back into Boston there is always something to do on campus or within a short drive. The Cotillion Room, Gondola Club, and Frolic Club are

favorites with the girls. The King Philip in Wrentham is tops for name-band dancing. Weekend permissions include unlimited Friday and Saturday 1 o'clocks and overnights for all except the freshmen. Techmen may successfully invade the campus until 10:30 on weeknights.

Call Norton, ATlas 5-7722.

**WHEELOCK
COLLEGE
Boston**

Very close to the Simmons campus is Wheelock, a liberal and practical arts college with about 400 residents and day students. The hours tend to be quite liberal. Saturday curfew is 1 a.m.; Friday it's 12:30. Other permissions are granted according to classes.

WHEELOCK TELEPHONE NUMBERS

The switchboard is open until 10:30 during the week and 12:30 on weekends.

Riverway House 566-9114
Longwood House -8720

Peabody Hall 734-2620
Colchester Hse 566-8498

BOSTON HOSPITALS

Hidden away at Boston's many hospitals is a gold mine of dating fun. For those that make contacts at the hospitals, there awaits a species of female that seems to have the same dating philosophy as the Tech men. The girls are good for any party—be it sailing, movie, or formal dance. Like most Tech men, the girls wish to forget their work and studies while on a date and really enjoy themselves.

There are disadvantages of dating the girls in white. Their duty hours are very unpredictable and sometimes the weekend schedules are not published until the first of the week. (This usually makes the nurses excellent last-minute dates to fill in unexpected vacancies but makes long-range planning difficult.) The hours vary with the school but are generally rather strict.

BETH ISRAEL HOSPITAL, Brookline Avenue

A hospital which is on the popular list. For information call BEacon 2-4400.

MASSACHUSETTS GENERAL HOSPITAL, off Storrow Drive

Only a short M.T.A. ride or a 20-minute walk across the Longfellow Bridge, M.G.H. is a favorite with Techmen. Here are over 400 student nurses with whom M.I.T. men rate highly. Informal acquaintance dances are held in Walcott House each month. The students in the last six months of the senior year have unlimited hours—except when they're on night duty.

MASSACHUSETTS GENERAL HOSPITAL NURSES' TELEPHONE NUMBERS

MASSACHUSETTS MEMORIAL HOSPITAL, Harrison Avenue

Another nursing school very popular with M.I.T. men. The girls also hold occasional mixers, so watch for notices posted around campus.

MASSACHUSETTS MEMORIAL HOSPITAL NURSES' TELEPHONE NUMBERS

740 Harrison Avenue	CI 7-8552
10 Stoughton Avenue	CO 6-1575

NEW ENGLAND BAPTIST HOSPITAL, Parker Hill Avenue

Situated on the top of Parker Hill, this school of 200 girls wins the award for the best view of the city. Many of the girls go home on weekends, so dating might mean a trip to the suburbs.

SMALLER SCHOOLS

ACADEMIE MODERNE, 35 Commonwealth Avenue

A really unusual school, featuring ten-week courses in modeling and poise. An acquaintance dance for each new class usually attracts a few Techmen: notices are posted around campus.

BRADFORD JUNIOR COLLEGE, Bradford

Still another nearly isolated spot, Bradford is a pleasant one hour's drive north of Boston. There are about 300 party-spirited girls at this school. In spite of the narrow social outlets of the local town, it is quite a popular place with many New England colleges. For those who want to stay away from the city, Bradford is quite handy to Crane's and Hampton Beaches. The Little Red Schoolhouse in Andover is good for dinner and cocktails, while a little farther afield in Danvers is the Putnam Lodge—excellent for dining and dancing. The hours at Bradford include unlimited 12 o'clocks Fridays and 1 o'clocks on Saturdays, with limited overnights.

BRADFORD TELEPHONE NUMBERS

Telephones are all in Haverhill.

CHAMBERLAIN'S SCHOOL OF RETAILING, 90 Marlborough Street

This small specialty school of only about 150 girls has proved interesting to some Tech men in the past. A few are commuters, but most of the girls live in the dorms. Hours are 1 on Fridays and 1:30 on Saturdays.

CHAMBERLAIN'S TELEPHONE NUMBERS

Page House, 127 Commonwealth Avenue (second year students)	CI 7-9055
Alexander House, 205 Newbury Street (about 20 first year students)	7-7823
Blair House, 138 Marlborough Street (about 25 first year students)	7-8614
Fay House, 181 Commonwealth Avenue (about 45 first year students)	7-9545 or 7-7731

CHAMBERLAYNE JUNIOR COLLEGE, 130 Commonwealth Avenue

Often confused with Chamberlain, this school has about 150 students. There are some nice dates there, if you can meet them. Telephone: CO 7-4350.

CHANDLER SCHOOL FOR WOMEN, 534 Beacon Street

Another two-year secretarial school, Chandler has about 1,200 girls, many of them commuters. Although they have no campus of their own, many have cars, and most of the commuters live close enough to Boston to make travel and entertainment problems simple. Call CO 2-9551 before 11.

EMERSON COLLEGE, 130 Beacon Street

Emerson specializes in speech and drama, and some of the girls there are quite talented.

Each dorm has its own mixers during the year. Hours range from 12 on Friday and 12:30 Saturday night for freshmen to 1:30 on Friday and 2 Saturday for seniors. The dorms are located at 100 Beacon Street, 150 Beacon Street, and 145 Beacon Street. Each floor has its own phone.

EMMANUEL COLLEGE, The Fenway

Considering its size, this school of over 600 students is comparatively little known around the Tech campus. You should be able to meet the girls at the acquaintance dances early in the year, but it may mean a trip into the suburbs if you take her home.

ENDICOTT JUNIOR COLLEGE, Beverly Farms

Another fine two-year school accessible to those with a car, for public transportation to Beverly (20 miles north of Boston) is difficult to say the least. There are 325 girls on this beautiful campus which overlooks Marblehead Bay.

Local social outlets are very restricted, so your best bet is to come back to Boston for the evening. But in nicer weather there are excellent facilities for an afternoon of tennis, swimming, or picnics on campus.

Watch for announcements of informal house mixers held each fall. The regulations here are fairly liberal, generally 1 o'clock Friday and Saturday nights.

Telephone WALKER 7-0585.

FISHER JUNIOR COLLEGE, 118 Beacon Street

This two-year school offers all sorts of secretarial courses to many attractive girls. These future secretaries have sometimes

been of real help to some Techmen who are slow at typing term papers. The hours at Fisher are fairly liberal, considering the close proximity of their dorms to most M.I.T. functions. All students have 12:30's on Friday and Saturday nights, with 10:30 permissions on Sundays and Wednesdays. Only about half of the 300 students live in the dorms, but don't ignore the commuters; most of them really appreciate a good time.

FISHER TELEPHONE NUMBERS

Don't phone during 7:30-9:30 study hours Mondays, Tuesdays, and Thursdays. No calls after 11 any night.

Andrew Hall, 181 Beacon	CI 7-8237
Florence Hall, 112 Beacon	7-8023
Edmund Hall, 114 Beacon	7-8022
Sara Mortimer Hall, 86 Marlborough	7-8238

FRANKLIN SQUARE HOUSE, Washington and Newton Streets

A huge boarding house for about 900 girls, quite similar to a college dormitory. Many of the residents attend day schools in Boston while the others have jobs around town. They hold occasional acquaintance dances which have led to beautiful friendships for some Tech men. The hours are liberal, especially the 2 o'clocks granted the business girls on Saturday nights.

Telephone KEnmore 6-8300.

GARLAND JUNIOR COLLEGE, Commonwealth Avenue

This art and home economics school of about 300 girls holds mixers, always well attended, at the beginning of each term. Hours are ironically 1:30 Friday and 12:30 Saturday, making Garland great for late Friday night dates. Call KEnmore 6-1017 before 10:30.

KATHARINE GIBBS SCHOOL, Zero Marlborough Street

Still another of the Fisher-Chandler type. A few of the Katy Gibbs grads have become Techretaries and often are quite popular with M.I.T. men. Some girls take courses at Gibbs after graduating from college, so you may find some older students there.

LASELL JUNIOR COLLEGE, Auburndale

This two-year school of liberal and fine arts is located straight out Commonwealth Avenue about a half hour's drive from Tech.

The Highland Branch of the M.T.A. runs within one-quarter mile of Lasell (Woodland Station) and the Middlesex and Boston bus, which connects with the M.T.A. at Lake Street (Boston College), runs right by the back of the campus.

Lasell girls have always been popular with Tech men. The Totem Pole is only five minutes from the campus and is quite popular with the girls.

Lasell sponsors many mixers in the fall, so don't miss the invitations which are posted around the Institute. The hours are 12:45 for freshmen and 1 for seniors, both Friday and Saturday nights. Telephone LAsalle 7-0630.

LESLEY COLLEGE, Everett and Oxford Streets, Cambridge

Lesley is a private teachers' college, located just beyond Harvard. The campus is shown on the Radcliffe map. You will find all types of girls here, too. Some Tech men have done quite well at Lesley.

NEWTON COLLEGE OF THE SACRED HEART, Center Street, Newton

A liberal arts school, Newton contains girls of high calibre, as their popularity attests; 630 fun-loving girls live on this beautiful campus. Transportation is not a serious problem since the Watertown bus or Riverside M.T.A. run within six blocks of the school.

Hours are 1 on Friday and Saturday. For information on mixers, ask for the head of the Social Committee. Call DEcatur 2-6700 before 10 p.m.

PINE MANOR JUNIOR COLLEGE, Wellesley

The campus is not too far from Wellesley College, or about a twenty minute drive from Tech. There actually is very little to do on or around campus, so it is best to head back to Boston. Most of the students have 1 o'clock permissions on Friday and Saturday nights.

Telephone CEdar 5-3010; the switchboard is closed after 10 p.m.

REGIS COLLEGE, Weston

Regis is a Catholic women's liberal arts college attended by 700 of the better looking girls in the area. Relatively untouched by Techmen in the past, it is fast gaining popularity. Unfortunately, a car is a near-necessity, since the school is located about five miles north of Wellesley. Many of the local girls go home over weekends, however, making them a little more available. Curfews are 12 Saturday night, 11 for seniors and 10 for the other classes on Friday. The switchboard closes at 10.

AFTER SIX

RESTAURANTS

This section presents a wide variety of places to go and things to do in the Boston area. The first part is devoted to restaurants. Parking downtown is often a problem; so are reservations—both, naturally, depending on time. The Sunday gourmet must beware; many restaurants are closed Sundays, so ask before going. The times shown are the closing times unless additional information is supplied.

OLD FAVORITES

Al Trager's—448 *Harvard St.* (*Coolidge Corner*), *Brookline*—*Week nights 9; Fridays 1; Saturdays 2; Sundays 12.*

Hot knishes and kishke are quite good; be sure your appetite is man-sized, because the portions are. \$1.50 typical if you're really hungry. Parking not too bad.

Chez Lucien—121 *Massachusetts Ave.* (*near Symphony Hall*), *Boston*—10:30.

Red and white checked tablecloths set the French cafe atmosphere of this unusual restaurant. You will find quite a few Bohemian students adding to the color, but don't be discouraged by the pseudo setting. The food is excellent, especially the more typically French dishes. You can get better steaks elsewhere. The service is reasonably good, but night school French prevails among the help. Prices run from \$2.00 to \$4.50, and they do have a wine list. Chez Lucien is an informal place, great before a party or movie, but reservations are preferred.

Child's—240 *Boylston St.* (*Park Square and Public Gardens*), *Boston*—*Week nights 12:30; Fridays and Saturdays, 1:30.*

One of the more tastefully kept economy restaurants in Boston, Child's will provide you with a pleasant change of pace from your normal fare. Very good for dinner dates as the tab usually stands around \$2.00 each. Grill menu is available at 9:30.

Dubarry—159 *Newbury St.* (*near Copley Sq.*), *Boston*—*Week nights 8:30; Saturdays 9; closed Sundays.*

Dubarry is a quiet, informal little restaurant which offers a wide selection of French and American foods. Massive green wooden booths line the walls, and regardless of the crowd they establish a rather intimate atmosphere. Wide variety of foods and wines.

Durgin Park—30 *No. Market St.* (*Adams Square*), *Boston*—8:30; *closed Sundays.*

"D. P." is a Tech institution. Durgin specializes in man-sized portions of good, simple Yankee cookery. Durgin is one of Boston's most famous restaurants, and has made but grudging concessions to the twentieth century, retaining its unusual market atmosphere. You can get an epicurean's delight in a 95¢ meal or stuff yourself with an inch-thick juicy roast beef which hangs over a full sized plate (\$3.95).

Edelweiss Restaurant—197 *Green St.* (*behind Central Square*), *Cambridge*—12 *midnight.*

Italian menu, prices \$1.25 up, \$1.75 typical. Their coffee alone is worth the trip. Food is quite good, service is adequate. Of considerable interest is the fine job they've done in remodelling a cellar into an attractive restaurant.

Elsie's—71a *Mt. Auburn St.* (*Harvard Square*), *Cambridge*—1 *a.m.* A college favorite for largest sandwiches at lowest prices. Probably more customers per square foot than any other spot in Boston. No tables, and stools are always jammed. Fressers Dream for 95¢ is formidable, and Elsie's Roast Beef Special at 50¢ is known for miles.

English Room—29 *Newbury St. at Arlington St., Boston*—9 PM.

This widely known restaurant is famous for good food, including a distinctive variety of home baked breads and rolls plus an outstanding salad. We highly recommend the English Room for an inexpensive and tasty dinner.

European—218 *Hanover St. (M.T.A. Union Street Station), Boston*—1 AM.

This is *the* place for pizza, with prices from \$1.00 to \$4.00. Informality and good service are traditional.

Essex Delicatessen—1 *Essex St. (Boylston St. M.T.A. Station), Boston*—12 *Midnight*.

Low prices, good food.

F. & T. Restaurant and Diner—304 *Main St. (behind East Campus), Cambridge*—*Week nights 11; Saturdays 8; closed Sundays*.

Portions are large, prices low. Restaurant serves liquor. Good choice for your daily bread.

Glynn's, Inc.—300 *Main St. (behind East Campus), Cambridge*—*Week nights 11; Saturdays 8; closed Sundays*.

Fairly new, Glynn's is probably the best place to eat near M.I.T. Very clean, and recommended for casual meals. Liquor is served; I.D. required.

Honey Bee—700 *Massachusetts Ave. (north of Central Square), Cambridge*—12 *Midnight*.

Another favorite with the gang for good, inexpensive food. No night

spot, but they really cater to the college men who want a complete dinner, inexpensive and fast. Forty cent cocktails are on the dinner menu.

Jennie's North End—8 *Bartlett Place (M.T.A. Union Street Station), Boston*—*Week nights 12; Sundays 1*.

A favorite for good Italian food at a lower price. \$1.25 to \$1.50 typical, and everything is cooked to order.

Jim's Restaurant—538 *Commonwealth Ave. (Kenmore Square), Boston*—*Week nights 8; Saturdays and Sundays 2 PM*.

Sandwiches and light meals at low prices. Good place to eat if you live near Kenmore.

Ken's—549 *Boylston St. (Copley Square), Boston*—3 AM.

A little Jack and Marion's. Prices are about \$2.00 for a good meal. Quite nice for a light date.

Kendall Diner—125 *Broadway (two blocks behind East Campus), Cambridge*—*Week nights 8:30; Saturdays 9; closed Sundays*.

A good place around the Institute for snacks and quick dinners. Newly rebuilt, very clean. Prices are fair, food is good, service is fast. Free parking for lazy people.

Mother Anna's—211 *Hanover St. (near Callahan Tunnel), Boston*—11 PM.

This is another favorite in the Italian North End district. Prices are moderate and food is cooked to order.

TIL NOV. 15, 1963 AT

50^c

NEWBURY'S STEAK HOUSE

94 Massachusetts Ave. KE 6-0184

Back Bay, Boston

Newbury Steak House—94 Massachusetts Ave. (near Commonwealth Ave.), Boston—9:15 PM.

The food is very good for the price. The Newbury Steak House is very popular with Techmen because of coupons which can be cut out of most M.I.T. publications. You can spend from \$3.00 to \$1.50. The parking situation is usually bad.

The Nile—52 Hudson St. (off Stuart St.), Boston—10 PM.

A small restaurant serving Syrian and Egyptian food. Shishkebab (Lami-bi-Lahm) and the combination plate are both excellent. The food can range from American to the exotic. The prices range \$1.50 up. Parking conditions are usually adequate.

Peking on the Mystic—66 High St., Medford—8 PM.

The Peking on the Mystic offers very good Chinese cuisine. The Smorgasbord (Chinese of course!) is a real experience where you can get a good cross section of Cantonese or Peking dishes. It is often frequented by Tech's Chinese students. The Smorgasbord (\$2.50 but well worth it) runs from 6 to 8 p.m. on Wednesdays and Saturdays. The distance is a little far; a car is advisable.

Peter Pan—581 Boylston St. (Copley Square) and 645 Commonwealth (above Kenmore Square), Boston—3 AM.

A pair of fine sandwich-snack shops. Good for after a date, but usually crowded.

Petit Gourmet—19 Garden St. (near Radcliffe), Cambridge—Week nights 9; Sundays 7.

Now under new management. Food and service have always been good here.

Pinto's—136 Massachusetts Ave. (north of M.I.T.), Cambridge. It's just past the tracks, and the food is ample, edible, and cheap. For lunch the specialty of the house is submarine sandwiches.

"Red Death Diner"—500 Main St. (behind East Campus), Cambridge—24 hours daily.

Probably this place has a name, though no one ever uses it. Recently cleaned up, this is a good place for coffee in the wee hours of the morning.

Simeone's—21 Brookline St. (behind Central Square), Cambridge—12 Midnight.

A favorite with Techmen for hearty, inexpensive weekend meals. Specializes in Italian dishes—great dinners in the \$1.00 and \$1.50 range. Usually crowded Sundays, and service rather slow when crowded. A collegiate crowd, mostly from Harvard and M.I.T., lends atmosphere. Reservations for small groups may be phoned in. A wine list is in evidence, but watch your age. Parking can be found on side streets off Massachusetts Avenue.

Smith House—500 Memorial Drive (West Campus), Cambridge—Daily 10.

Dressy place for a change of pace.

THE **SMÖRGÄSBORD** RESTAURANT

39 Tremont Street, Boston (*opp. historic King's Chapel*)

Luncheons and dinners, moderately priced

Open Mondays thru Saturdays until 8 p.m.

No liquor served

CA 7-3997

Smorgasbord—39 Tremont St. (near The Parker House), Boston—Week nights and Saturdays 8; closed Sundays.

Smorgasbord dinner—all you can eat for \$1.50—is outstanding. Complete dinners with smorgasbord are from \$1.35 to \$2.00. Luncheon smorgasbord is 99¢. Liquor is not served. We recommend the smorgasbord highly.

Warner Caverly's Diner—Albany and Massachusetts Ave. (near the

M.I.T. Reactor), Cambridge—24 hours a day.

Also known as the "grubby grille" to its most earnest supporters. Odds are that this is the best breakfast around. As *Voo Doo* reported a few years back, their scrambled eggs are the best in the world. Also extra-large S. S. Pierce juice for a dime. Reasonable dinners for \$1.00 or less. Vegetables aren't outstanding, but desserts usually cut with a heavy hand. Open 24 hours, but closed 1 p.m. Saturday to 9 p.m. Sunday.

**OTHERS,
GOOD
BUT
REASONABLE**

Acropolis — 1680 Massachusetts Ave. (beyond Harvard Square), Cambridge—12 Midnight.

Delicious Greek dishes at reasonable prices. Take the Porter Square bus from Harvard if you're riding the M.T.A.

Amalfi—10 Westland Ave. (behind Symphony Hall), Boston—12 Midnight.

First-class Italian cuisine. The Amalfi serves a great variety of dishes; the antipasto, ravioli, and scallops are especially good. Ideal for dining before Boston Symphony concerts. Dinner from \$2.20 to \$4.50, with \$2.20 easily adequate. Good wine list. Reservations are preferable. Expect to pay for parking.

Athens Olympia—51 Stuart St. (at Tremont St.), Boston — 12 Midnight.

Probably the most popular Greek

restaurant, though American and Oriental foods are also served. Excellent chicken, lamb, rice pilaf, and baklava. Air conditioned. Not too expensive, and well located for a pre-theatre dinner. Figure \$2.25 to \$3.50 each.

Au Beauchamp—99 Mt. Vernon St. (up Beacon Hill from Charles Street), Boston—9 PM.

Intimate and French, the food and service have been recommended. Same proprietors as Tuileries but prices slightly lower. Figure \$3.50 each. Reservations preferred.

Bavarian Hofbrau—100 Dartmouth St. (near Back Bay Station), Boston—1 AM; closed Mondays.

Good German food, with performing waiters and waitresses (evening). Although the music is Austrian, the beer is distinctly German. Dinners run about \$2.75 each (Wiener schnitzel or sauerbraten \$3.25). Reservation preferred.

Beacon Hill Kitchen—23 *Joy Street* (behind *State House*), *Boston*—11 PM; closed *Sundays*.

Not the place prior to the theatre or dance. Nineteenth-century atmosphere still lingers on at this charming restaurant on Beacon Hill. Garden patio in the back for warmer days. Food is good, prices reasonable at about \$1.00 to \$3.50.

Bob Lee's Islander—20 *Tyler Street* (in *Chinatown*), *Boston*—3 AM.

This restaurant offers some excellent Polynesian dishes. The setting is unique. Prices hover around \$3.25.

Boraschi's Grotto—21 *Corning St.* (near *Broadway and Tremont St.*), *Boston*—12 *Midnight*.

Very highly recommended. Sunken "grotto" provides fine atmosphere for a date. Outstanding lasagna and spaghetti, fine chianti, excellent service. What more could we ask? Complete dinner \$2.00 to \$4.50. Reservations are a good idea.

Cantina Italiana—346 *Hanover St.* (north *End*), *Boston*—12 *Midnight*.

Atmosphere, menu, and music are all Italian. Prices run about \$2.50 per person. Reservations are preferred.

Carmen's—85 *Charles St.* (foot of *Beacon Hill*), *Boston*—9 PM.

Small and intimate, Carmen's is noted for its candlelight atmosphere and fine Italian kitchen. Carmen herself presides, her fee being in the \$2 to \$4 bracket. A reasonable choice on special occasions.

Jim Cronin's (Jim's Place)—119 *Mt. Auburn St.* (beyond *Harvard Square*), *Cambridge*—12 *Midnight*.

Here is beer-hall atmosphere with appropriate decorations and bar. It is admirably suited for beer drinking, and the food is reasonable. Dinner prices are usually from \$2.50 to \$3.00.

Du Barry—157 *Newbury St.* (near *Copley Square*), *Boston*—8:30 PM; closed *Sundays*.

For about \$3.00 you can have an excellent French meal here. Reservations are probably a good idea on Fridays and Saturdays.

Felicia's—145A *Richmond St.* (near *Callahan Tunnel*), *Boston*—12 *Midnight*.

Italian and unpretentious, its chief mark is Felicia herself, who does all the cooking in the kitchen where you may come back and visit. No liquor served, but imported wines are excellent. Reservations are preferred. Prices are from \$2.75 up.

Jake Wirth's—31 *Stuart St.* (near *Tremont St.*), *Boston*—11 PM; closed *Sundays*.

Well known for their old-fashioned German cooking and Jake's special "Dark Brew." German beer hall atmosphere, but for sauerkraut and wieners or sauerbraten (Wednesday only) it's great. Pay to park or take the M.T.A.

Maitre Jacques—260 *Berkeley St.* (at *Commonwealth Ave.*), *Boston*—9 PM.

The quality of this formal, candlelit restaurant cannot be matched within the short range of a student's pocketbook. Extras such as attractive and complete place settings add to the excellent French foods. There is no wine list, but wine glasses will be immediately provided by your attentive waitress if you bring your own bottle. Maitre Jacques definitely has a Parisian atmosphere and, best of all, prices run from \$2.50 to \$4.50. This is an ideal spot for dinner preceding Junior Prom. It is elegant and intimate. Reservations are advised.

Marliave—10 *Bosworth St.* (near *the Theater District*), *Boston*—11 PM; closed *Sundays*.

Dining rooms and roof garden cocktail lounge. The main dining room approaches the Amalfi for fine Italian food combined with truly professional service. Located near the old Bosworth steps since 1868, the Marliave is justly proud of its long-standing reputation. Reservations are suggested.

Novak's—1700 *Beacon St. (at Coolidge Corner), Brookline*—12 *Midnight*.

Relaxed and sophisticated, Novak's offers as specialties sauerbraten, Hungarian goulash, and stroganoff, each on a complete dinner for \$2.95.

Ola's—14 *Carver St. (two blocks east of Park Square), Boston*—9 *PM*.

A small Scandinavian restaurant located on a side street, with a courtyard dining room used on summer evenings. Ola's serves an excellent smorgasbord featuring several especially fine seafood dishes. The rosettes, an unusual and delicate pastry, are a delightful ending to the meal.

Omonia—164 *Broadway (just below the Theatre District), Boston*—12 *Midnight*.

This is a typical Greek restaurant. Their a-la-carte baked lamb at \$1.05 is of some interest, and their Turkish coffee is well up to par. Beer and wine are served.

Patten's—173 *Milk St., Boston*—8:30 *PM*.

Best description is "an expensive Durgin Park." The food and atmosphere are nicer. If you go for old Boston maps on the walls and comfortable "captain's" chairs, you'll like Patten's. Specializes in New England cooking. Service is good, prices are moderate, but the food is worth it.

Purcell's—75 *School St. (near City Hall Annex), Boston*—9:30 *PM*;

closed Sundays.

Boston baked beans are the specialty at this masculine, old restaurant. Dinners run around \$2.75.

South Seas—21 *Harrison St., Boston*—3 *AM*.

Although primarily Polynesian in atmosphere, the place names on the menu circle the globe. With an acute bent for the strange but humorous, the restaurant offers many extraordinary drinks. The Polynesian specialties are highly recommended, though the Cantonese sector of the menu is equally inviting. Expect to pay about \$3.50. Reservations may be necessary.

Stella's—9 *Fleet St. (off Hanover St. in the North End), Boston*—1 *AM*.

If you're looking for a dining spot for yourself and your date, or are just weary of the old subsistence diet, here's the place to go. Located in the picturesque North End Italian district, Stella's food is among the best Italian cookery to be found in Boston. The service is usually top-notch and prices are reasonable (although not tea-room tariffs). Dinners from \$2.00 to \$3.75, unbeatable pizza \$1.25 up.

Steuben—114 *Boylston St. (next to the Colonial Theatre), Boston*—3 *AM*; *closed Sundays*.

With three different styles of dining rooms, Steuben offers a wide range of dining pleasures. The Main Dining Room runs about \$3.00; the Vienna Room is near \$4.75. The food is excellent.

CHEZ DREYFUS RESTAURANT

Cuisine Francaise

Moderately Priced

COCKTAIL LOUNGE — BANQUET ROOM
PLEASANT DINING ROOM

Open 11:30 A.M. to Midnight Free parking after 6 P.M.

44 CHURCH STREET KI 7-4311 HARVARD SQUARE

Closed Sundays During Summer Months

Les Tuileries—370 *Commonwealth Ave. (at Massachusetts Ave.)*, Boston—9 PM.

This Parisian restaurant is operated under the same management as the more informal Au Beauchamp. The cuisine is in the best of French style, although more expensive than Maitre Jacques. Les Tuileries is well suited for a special evening. The service is attentive and subtle, and they have an excellent wine list which you should use to advantage. The walls are decorated with an unusual relief mural which, when combined with dim lighting, provides a truly inspiring atmosphere. Like Maitre Jacques, this establishment offers the food and aura which can impress your guests so easily.

Warmuth's—280 *Devonshire St.*, Boston—10 PM; closed Sundays.

Many nightgoers list Warmuth's as their favorite seafood restaurant, and with good reason. Salty atmosphere is pervasive, and the food is excellent at moderate prices. Cost per person varies widely, starting at about \$2.00.

Window Shop—56 *Brattle St. (near the Brattle Theatre)*, Cam-

bridge—8 PM.

Be sure to visit this fine Viennese garden restaurant in Harvard Square. This is a really interesting summer spot, for in fine weather you can sit under gay umbrellas in the garden, under trees related to Longfellow's spreading chestnut. The menu features some of the most delicious continental food on this side of the Atlantic at comfortably moderate prices (dinner \$2.40 to \$3.80). Not luxurious nor at the same time unimpressive, the Window Shop is recommended as the place to show parents or a date your good taste in local restaurants. (French omelet, sauerbraten, coq au vin, Wiener schnitzel, pastry.)

Wursthaus—4 *Boylston St. (Harvard Square)* and 9 *Prospect St. (Central Square)*, Cambridge—12:30 AM.

A truly unusual combination—bar, restaurant, and delicatessen complete with television. They feature some most unusual dinners and special sandwiches which are worth trying sometime. The prices are reasonable and the service is fair. They are very proud of the wide selection of domestic and imported beer.

CHINATOWN

The area of Chinatown (Beach, Tyler, and Oxford Streets, near South Station, Boston) provides many restaurants and an eating experience no one should miss. Don't be fooled by the big signs and bright lights, for some of the smaller places have great Chinese dishes at very reasonable prices. Ask around, but don't be afraid to experiment. Primarily, the idea is to go with as large a group as possible. This allows additional variety at reduced expense. Chinese restaurants never seem to close,

appealing particularly to early morning revelers. Chop sticks are in order; they're great sport. Your share of the check will usually run between \$2.25 and \$3.00. Parking is nearly impossible in Chinatown proper, but you usually can park a few blocks away. (A few standbys are the House of Roy, inexpensive and popular, Yee Hong Guey, moderately priced, and The Four Seas, excellent for a semi-formal date. Most are open until 3 or 4 a.m.

MORE EXPENSIVE AND OUTSTANDING

Beef 'n Bird—490 *Commonwealth Ave. (in the Hotel Kenmore)*, Boston—10 PM.

The combined facilities of the Kenmore's Beef 'n Bird, The Tavern, and Coffee Shop offer fine eating

'til 1 AM. Beef 'n Bird, itself, closes at ten.

Bradford Roof—275 *Tremont St. (Bradford Hotel)*, Boston—Week nights 1; Saturdays 12; closed Sundays.

Dinners near \$7.00 are the rule. Dinner dancing and musical show are regular features. Reservations are necessary.

Cafe Plaza—*Copley Square (in the Sheraton-Plaza Hotel), Boston—10 P.M.*

Fine decor enhances dinners costing about \$4.00. The companion Town Room is somewhat less expensive.

Cafe Rouge—*Park Square (in the Statler Hotel), Boston—12 Midnight.*

This hotel restaurant is comfortable, and no reservations are needed. You must expect to pay at least \$3.75.

Darbury Room—*271 Dartmouth St. (Back Bay), Boston—12 Midnight; closed Sundays.*

Dancing on Friday and Saturday nights is a regular feature of this sophisticated restaurant. Prices run about \$4.00, and reservations are advised.

Jimmy's Harborside—*248 Northern Ave. (at Fish Pier), Boston—9 P.M.; closed Sundays.*

Apparently a great favorite with Bostonians and tourists. Seafood is the specialty, and a window table in the daytime will afford a fine view of the harbor. An impressive place to take a date. Dinner \$2.00 to \$6.00.

Joseph's—*270 Dartmouth St. (at Copley Square), Boston—12 Midnight; closed Sundays.*

One of Boston's very finest for elegant French dining. Same proprietor as Locke-Ober. Extremely ex-

pensive, \$10.00 about par. Many think first of Joseph's when they can afford to pull out all the stops.

Locke-Ober—*3 Winter Place (near Park St.), Boston—10 P.M.; closed Sundays.*

Boston's most expensive restaurant, Locke-Ober's food, service, and wine are second to none. Dinner can easily run to \$12 per person, but this is clearly the ultimate in dining.

Parker House—*60 School St. (at Beacon and Tremont Streets), Boston—12 Midnight.*

Try the main dining room for excellent food served in the elegant "Old Boston" manner. Tariff is about the same as the Ritz-Carlton.

Pieroni's—*7 Park Sq. (at the east end of Park Sq.) and 601 Washington St., Boston—11 P.M.*

Sea food is a specialty here, with prices in the \$4.00-and-over range. Reservations are preferred.

Polynesian Village—*400 Commonwealth Ave. (in the Somerset Hotel), Boston—1 A.M.; Saturday 12 Midnight.*

A la carte dishes are about \$2.50 to \$4.00. The mood is lush and the drinks are exotic. Reservations are usually required.

Red Coach Grill—*43 Stanhope St. (behind the John Hancock Building)—11 P.M.*

An American-style restaurant, excellent in every respect. Food, service, and drinks leave little to be desired. The quality is here, to-

HANCOCK 6-4179

麗香飯店

HOUSE of ROY

Real Chinese Foods

OPEN DAILY FROM 4 P.M. TO 2 A.M.

25 TYLER STREET

BOSTON 11, MASS.

gether with a wagon-wheel atmosphere. Dinners run from \$3.00 to \$6.00.

Rib Room—400 *Commonwealth Ave. (in the Somerset Hotel), Boston*—10 P.M.

Companion to the Polynesian Village, this restaurant offers the best roast prime ribs to be found in Boston. Expect to pay about \$6.00.

Ritz-Carleton—15 *Arlington St. (opposite the Public Garden), Boston*—9:30 P.M.

The dining room is large, elegant, and slightly roccoco. The food is simple and expensive but service

is superb. The tab usually runs near \$4.50.

Union Oyster House—41 *Union St. (near Faneuil Hall), Boston*—Week nights 9; Fridays 9:30; Saturdays 10 P.M.

One of the very best in town for seafood. Always quite a few cognoscenti glued to the stools in the old oyster bar on the first floor. Complete seafood dinners run \$3.00 to \$6.00 and worth it. There are a couple of branches in other parts of the town, but their lack of atmosphere puts them pretty well out of it.

COFFEE HOUSES

Recently, Boston has seen the establishment of a good number of coffee houses, most of them equipped with folk singers, some very good. Of particular note are: Club 47 (47 Mt. Auburn St. near Harvard Square); Cafe Yana (on Brookline Avenue near Kenmore Square); The Turk's Head (71½ Charles St., Boston) and The Unicorn (On Boylston St., West of Copley Square, Boston.)

NIGHT SPOTS

Blinstrub's Village—308 *Broadway, South Boston*

Known as the largest night club in the world, featuring popular recording stars and other famous personalities. Delightful atmosphere, excellent food and drinks. There is no cover charge; minimum of \$2.00 during the week and \$3.00 on the weekends, possibly higher for big names. It is best to get reservations when a "big name" is in town.

Eliot Lounge—*Massachusetts and Commonwealth, Avenues, Boston*
The cocktail lounge most popular with M.I.T. men. Very pleasant atmosphere and reasonable prices. All drinks are 45¢ before 8 p.m.

Merry-Go-Round — *Sheraton-Plaza Hotel, Copley Square, Boston*

A pleasant, fairly quiet cocktail lounge, complete with functioning merry-go-round in the center of the room. Very good place for a date and for the time when you may have to entertain a date's or a roommate's parents.

Storyville — *Bradford Hotel, 275 Tremont Street, Boston*

The modern jazz center of Boston—very popular with the college crowd. They feature the tops in jazz personalities such as Dave Brubeck and Sarah Vaughn, as well as folk singers and the indefinable Tom Lehrer. No cover charge, the minimum ranges from \$1.50 to \$3.50 during the week, depending on the entertainment, and about \$3.50 on weekends. Sunday afternoon is bargain day—\$2.00, and hence these matinees usually draw a large college crowd. Reservations are held till 8:30. Age limit is strictly enforced.

Totem Pole — *Norumbega Park, at Routes 128 and 30, Newton*

Large dance hall with cozy atmosphere. Name band dancing at reasonable prices. Usually is \$1.75 a couple, but real big name bands will be up to \$3. Adjacent Norumbega Park is very pleasant in good weather—includes a small amusement park, canoeing and pedalboating (pedalboats are built for two) on the Upper Charles River. Open Fridays and Saturdays only. No drinks.

We wish to thank the authors of "Beans, Beef and Bourbon," Harland and Ann Riker, for the ideas we borrowed and for the aid we have received from that publication in our own wandering about colorful Bean Town. We highly recommend this booklet as a more complete guide to "wining and dining in the Boston area." At the Coop for a piddling \$1.00, a very worthwhile investment.

We wish also to thank the M.I.T. Graduate Student Council for allowing use of parts of the Guide to Graduate Life, which incidentally has a list of Chinese restaurants. Another very useful publication is the Collegiate Guide to Greater Boston, put out by the Harvard Crimson and distributed free of charge. The fine arts and haberdashers sections are especially useful.

TECH AFTER HOURS

One of the most amazing aspects of Institute student life is the great number of social events which are held on campus. These are usually economical and well-planned, in addition to being heavily attended.

ACQUAINTANCE DANCES

These affairs blossom in great numbers near the beginning of the fall term. An Acquaintance Dance is a method, invented by some great unknown genius, to aid the plot of boy meets girl. Specifically—a large number of boys are admitted (at a cost of approximately \$1.00) to a room containing girls, and may the best man win. Among the more famous of these are the Freshman Acquaintance Dance, the Baker House Acquaintance Dance, and the T.C.A.—Chandler Dance. Watch the bulletin boards.

ATHLETICS

Besides the crew races in the spring and home basketball games in the winter, you can always find some athletic event in progress some place on campus. Admission to any M.I.T. athletic event is FREE to all students.

DORMITORY DANCES

As the school year proceeds and life begins to drag a bit, the dorms get inspired and hold dances. The East Campus' "Fiesta Del Vino" has become a tradition; in the past there have been such wonders as Baker's "Hernando's Hide-away" and Burton's "Bolshevik Bounce." The themes of these affairs are closely related to their titles. Admission is usually very reasonable.

- DRAMASHOP** Dramashop productions are an entertainment bargain of the first order. Admission to the "evening of one-act plays" is free; the full productions have an admission price of \$1.00 per person.
- I.D.C.** The Informal Dance Committee, composed of members of the Walker Memorial dining staff, has but one purpose in life—to sponsor a dance each month of the school year. The music is on records—very carefully selected to please everyone. The decorations, which are designed and constructed by the committee, help to set the mood and the theme for the dance. Candles on the tables add a great deal of class to old Walker. It is really "your best bet for an on-campus date." Admission, \$1.00 per couple.
- OPEN
BID
FRATERNITY
PARTIES** Many of M.I.T.'s fraternities hold parties that are open to all—both dorm men and other fraternity men. They are usually mobbed, but the entire deal is "on the house". Watch the bulletin boards.
- COMMUNITY
PLAYERS** A theatrical group composed of members of the Institute staff. They present two productions per year. Admission, \$1.00.
- L.S.C.
MOVIES
AND
LECTURES** The Lecture Series Committee (see activities) presents a movie on campus every weekend of the school year—usually on Friday and Saturday evenings in Kresge, but be sure to check the colorful posters that are to be found around the Institute. The selection of movies has always been very good, and lately it seems to be improving—always worth 30 cents a head; and a cheap date for 60 cents.
- Four or five times during the term the L.S.C. presents a lecture delivered by a well-known personality speaking on a subject of general interest. L.S.C. policy is that these lectures are gratis.
- MUSICAL
CLUBS** Through the year, many concerts are presented by the Concert Band, the M.I.T. Symphony Orchestra, the Glee Club and the Choral Society; these are always announced in advance in the "Calendar of Events." The Baton Society sponsors occasional concerts and the Humanities Department presents a Humanities Series of five concerts, from November through March, in Kresge. You may subscribe to the series or purchase single tickets. Also, there are many excellent organ recitals in both the Chapel and the Auditorium. These are announced in the "Calendar of Events."

**JUNIOR
PROM**

The biggest weekend for the M.I.T. undergraduate body is Junior Prom. Traditionally held on the first weekend in November, it consists of a formal dance Friday night, Field Day Saturday afternoon, and an informal dance-jazz concert Saturday night. A name band is generally on hand for the Friday night formal. On Saturday afternoon the Beaver Key sponsors Field Day, a day of freshman-sophomore competition. The competition is such as to require intelligent planning, preparation, large class participation, and endurance. Saturday evening the M.I.T. community turns out en masse to see renowned artists, like last year's Peter, Paul, and Mary, provide a most enjoyable climax to the week's activities.

**ASSEMBLIES
BALL**

This is unquestionably the most plush dance held on campus, complete with red carpet and a reception line consisting of the biggest names at M.I.T. "Dress requisite"—that means TAILS, men! Tickets for this affair cannot be purchased. The A Ball is financed by the profits accrued by the Walker staff from the I.D.C.'s, and tickets are by invitation only—you have to know a Walker staff man. Held in Walker Memorial from 10 p.m. to 3 a.m.; Friday night, naturally, sometime near the end of April.

**AII-TECH
SING**

A concert-contest sponsored by the Baton Society in which singing ensembles from the living groups compete for prizes,

one for the best singers and "Egbert" for the best comical sketch.

**A.P.O.
SPRING
CARNIVAL**

One Saturday night, late in April, Rockwell Cage comes alive to the noisy bustle of the Spring Carnival. Under the organizational guidance of Alpha Phi Omega, most of the activities and living groups in the M.I.T. community set up games and other amusements at the admission-free carnival. Proceeds of the booths, which in the past have included such games as Wreck-the-Car and Dunk-the U.A.P., go to charity.

**DORMITORY
WEEKEND**

Sponsored by Dormitory Council, this weekend is usually held near the middle of the Spring term. It includes a semi-formal dance Friday evening at a cost of approximately \$3.50, cocktail parties and sometimes a jazz concert on Saturday afternoon, and an informal dance Saturday evening.

**DORMITORY
CHRISTMAS
SEMI-FORMAL**

This affair is also sponsored by the Dormitory Council, and as the name suggests it is held about a week or two before Christmas. The decorations are usually in a wintry vein, with pine trees and snow. As is usual it is held on a Friday night—cost also approximately \$3.50 per couple.

**FRESHMAN
CLASS
DANCE**

A couples dance sponsored by the freshman class every year. Held in town and specifically aimed at the freshmen.

**TECH
SHOW**

A musical play that is student-written, student-produced and directed, with a cast of Tech men and girls from Boston University, Emerson, etc. It usually appears about the beginning of March with tickets on sale a few weeks before. Seats are reserved, and prices vary with location in Kresge.

**SENIOR
WEEK**

The grand blast to end it all after completion of four years at this glorious school, the week is climaxed by graduation day. Included in this grand week are: a stag dinner, a night at the Pops, a formal dance and a moonlight cruise. Buying tickets for the entire week usually means a saving over the individual cost per event.

RECREATION IN BOSTON

If travel literature about Boston makes your mouth water, here are some tips for exploring:

**HISTORICAL
SPOTS**

Boston Navy Yard, *near City Square, Charlestown*—Many modern battle vessels here for repair or in mothballs; of special

interest is the frigate "Constitution" or "Old Ironsides," which is open to the public.

Bunker Hill Monument, Breed's Hill—Located at the sight of the famous battle opened by the command "Don't fire 'til you see the whites of their eyes." There is a museum at the foot of the tower, but for a real experience climb the 221-foot staircase for a great view of Boston.

Faneuil Hall, Dock Square—built in 1742, this building is crammed with stories of early colonial times. Today it serves both as a museum and a busy market center.

Old State House, Washington Street off State Street—A museum of the Colonial period. Many old prints of early Boston. Admission free—open weekdays.

Paul Revere House, North Square—This oldest frame house in Boston is restored to the condition it was in when its famous builder lived there.

State House, on Beacon Hill—Many historical relics of significance in American history are displayed in the beautiful marble showrooms. Open to the public.

BEACHES

Cape Cod, 50 miles or more from Boston—There are many excellent beaches for those who don't mind a longer drive. Two of the most popular are Craigsville in Hyannis and Old Silver and New Silver in Falmouth.

Crane's Beach, off Route 1-A in Ipswich, 25 miles northeast of Boston—A beautiful extensive beach, complete with sand dunes and surf, but the water is cold. No commercial amusements, but really great for beach parties; however, a recent ruling against beer has reduced its popularity with the college crowd. Charge is \$1.50 per car on weekends and holidays, \$1 on weekdays. Curfew is 10 p.m.

Duxbury Beach, off Route 3, about 30 miles southwest of Boston—This is another fine wild beach excellent for beach parties. It is never too crowded and the water is considerably warmer than the beaches on the north side of Boston. Open to the public.

Nantasket Beach, Hull, off Route 128, or take boat from Rowe's Wharf.—This is similar to Revere, but being a little farther from Boston, the crowds are somewhat smaller. The Nantasket Boat is the easiest and most pleasant way to get there; round trip is \$2.20. Amusements are confined to the famous Paragon Park.

Plum Island, a little above Crane's Beach—Miles of wide open free beach. Excellent for beach parties away from all crowds and concessions, but you must bring all you need with you. No charge or regulations. The beach and surf are very good, but water is cold!

Revere Beach, Route 1-A, Revere. Can be reached by M.T.A. This is a public resort with all the fixings. Huge sand beach, large midway and amusement center with plenty to see and do. On pleasant weekends it can really be crowded.

Wingarsheek Beach, Route 128, West Gloucester, 35 miles northeast of Boston.—Beautiful beach with rolling sand dunes. Public bathhouses and some refreshment stands. Cost is \$1.00 per car.

PROFESSIONAL ATHLETICS

The Boston Red Sox play in Fenway Park, just west of Kenmore Square. The Boston Patriots (professional football) use the Boston University stadium. The Boston Garden at North Station is the home of the Boston Celtics basketball and the Boston Bruins hockey teams; it is also the scene of many intercollegiate contests, ice shows, wrestling and boxing events, and such specials as the circus, rodeo, and ballet.

GOLF

The nearest golf courses are:

George Wright Memorial—An M.D.C. municipal course; can be reached by M.T.A.

Unicorn Golf and Country Club, Stoneham (about 10 miles north of Boston, one-half mile west of Route 28 on William St.)—this course is never too crowded, but you need a car.

Brookline Municipal—a good course but crowded on weekends; a car is necessary here, too.

Sandy Burr (off Route 20 in Wayland)—Not too crowded, but car is necessary.

Fresh Pond (Cambridge Municipal) (off Huron Avenue)—easily accessible, but only 9 holes and considered quite poor.

SKIING

The most popular slopes are:

White Mountains, New Hampshire

Mount Washington, Franconia—cog railway and several tows and lifts.

Cannon Mountain, Franconia—aerial tramway, rope tows, and T-bar.

Mount Cranmore, North Conway—Skimobile and poma lift.

Black Mountain, Jackson—T-bar and rope tow.

Wildcat, Jackson—gondola lift and T-bar.

Green Mountains, Vermont

Most a little further from Cambridge than the White Mountains, but the snow is often better.

Mount Mansfield, Stowe—chair lifts and rope tows.

Hogback Mountain, Brattleboro—chair lift and rope tow.

Mad River Glen, Fayston—chair lift and rope tows.

Mount Snow, Dover—chair lifts, rope tows, and a year-round outdoor swimming pool.

**Berkshires,
Massachusetts**

Several small slopes and tows around Adams, Great Barrington, and Williamstown are highly regarded by devotees.

**Central
Massachusetts**

With good snow conditions, there can be good skiing as close to Boston as Groton, Littleton, and the Blue Hills. But this is uncommon; don't count on it by planning far ahead.

The ski season usually begins in December and extends into March; but there is good spring skiing on the higher mountains—Mount Washington and Mount Mansfield—and the season may extend into May in Tuckerman's Ravine on Mount Washington.

Be sure to consult the Boston newspapers or the Outing Club for skiing conditions. The Club sponsors ski trips every weekend during the season and during winter vacation. Watch for notices on the main bulletin boards. The Outing Club also rents skis and equipment—rates are very reasonable for members.

CULTURAL BOSTON

MUSIC

To the more intellectually minded man-about-town, Boston, once the cultural center of the United States, offers a wide variety of entertainment.

For the pleasure-seeker interested in music, there is the Boston Symphony Orchestra, one of the greatest professional musical bodies in the world. Each year, it gives a series of twenty-four concerts on Friday afternoons and Saturday evenings. In addition, there is a series given on Sunday afternoons and Tuesday evenings, and a series at Sanders Theatre at Harvard throughout the school year. Not to be overlooked are the open rehearsals given on Thursday evenings. These concerts, although they are called rehearsals, are as good if not better than any of the regular series in the added advantage that tickets are available throughout the season at moderate prices. Tickets for all other concerts, with the exception of those at Harvard, are obtainable by subscription only, but the subscriptions have long since been bought up by proper Bostonians and are next to impossible to obtain.

The Boston Symphony is not, however, the only form of musical entertainment offered in the city. Each spring, usually about the third week in April, the Metropolitan Opera of New York performs a series of operas in the Music Hall (formerly the Metropolitan Theatre). These, although somewhat expensive, are well worth seeing. Tickets may be ordered through T.C.A. starting about the first week in February. For further operatic entertainment watch for the New England Opera Association performances during the winter season.

The Boston University Celebrity Series offers still another form of musical enjoyment. Each year its manager, Aaron Richmond, brings to Boston a number of outstanding musicians and several well known orchestras. In the past we have heard the Philadelphia Orchestra, the New York Philharmonic, the Concertgebouw Orchestra of Holland, and the Vienna State Opera Orchestra; also in the series have been Rudolph Serkin, Nathan Milstein, Arthur Rubenstein, and Issac Stern. Tickets to these concerts are obtainable by subscription or at the box office starting a few weeks before each performance.

For those who enjoy chamber music, the Gardner Museum offers free concerts every Sunday afternoon. The Chorus Pro Musica, perhaps the finest choral group in America, gives concerts each season in Symphony Hall. In the past they have done the Bach *B Minor Mass*, the Brahms *Requiem*, and the Beethoven *Missa Solemnis*. Boston is also the home of the Handel and Hayden Society, noted for its excellent recording of classical music. Their programs are usually made from earlier composers, and are a real delight for the lover of early classic music.

In addition, there is ample opportunity to hear music in a lighter vein. Each spring the members of the Boston Symphony turn themselves to lighter tasks and become the Boston Pops Orchestra. Under the leadership of Arthur Fiedler, this group gives a series of concerts of light music in Symphony Hall; these are especially attractive because for them the stiff straight-backed chairs are replaced with tables seating five or six, and everything from beer to champagne is served. Tickets for the Pops are obtainable at the box office. In the early summer, the Pops moves outside to play in the evening in the shell on the Charles River Esplanade; for these concerts, no tickets are needed.

THEATER

Still in the light vein, there are the musicals, several of which open each year in Boston before going to New York. These are usually given in the Colonial or Shubert Theatres and run for a few weeks at most. During past seasons we have seen "West Side Story," "Sound of Music," "Camelot," and "Becket."

For those more interested in drama than musicals, there are a number of plays given yearly. The Colonial, the Shubert, and the Wilbur, assuming the role of the Broadway theatres, usually present a number of shows destined to be hits in New York. Most of these, although somewhat expensive, are well worth the money; tickets can usually be obtained a few weeks before the opening, either at the box office or the agents. For those of us with less money to spend, the Charles Playhouse, located on Warrenton Street directly

behind the Shubert, offers a number of first-rate plays, such as "Streetcar Named Desire," "Waltz of the Toreadors," and "No-Exit." Although no great names appear in the casts, the performances are excellent and provide an ideal way to spend an evening.

MOVIES

In addition to the legitimate theatre, there is a large number of excellent movie houses. Take note of the previously mentioned T.C.A. ticket service if you run into trouble.

As can be seen, there is "plenty to do" around Boston, as well as in the Institute. Student life at M.I.T. need not be purely academic!

WHAT IS MAN, THAT THOU ART MINDFUL OF HIM?

Is Christianity "higher superstition", or is the faith of Paul and Athanasius, Augustine and Francis, Luther and Calvin, Wesley and Graham the actual, scientific, and experimental truth about man's place and purpose in life? See for yourself that a rigorous, intellectually honest, biblical Christian faith gives you a place to stand in the universe and the status of a son of the eternal, omniscient, almighty God.

Join scores of other Greater Boston students for meaningful Bible study Sundays at 9:00 a.m. At evening meetings, Sundays at 5:30, competent scientists and scholars from M.I.T. and elsewhere speak out of the perspective of their own vital and committed Christian faith. Worship services at 10:30 a.m. and 7:20 p.m.

Collegiate Club of HISTORIC PARK STREET CHURCH

(Congregational)

(on Boston Common by Park Street subway)

RELIGION AT M.I.T.

Often the first real challenge to a student's faith occurs when he leaves home and its tradition and comes to college. Here he finds students who are quite willing to attack his beliefs with facile arguments, science that seems to need no God, and writers in his humanities courses who question the existence of a God. In order to remain intellectually honest, a person must answer these challenges or, failing in that, change his beliefs.

Through their activities on campus, student religious groups provide the means for a diligent intellectual search of a student's beliefs. In this way, they attempt to engender religious maturity in the individual.

M.I.T. CHAPEL

In designing M.I.T.'s cylindrical brick Chapel, Eero Saarinen sought to provide a building which could be used by all of the faiths represented among the cosmopolitan student body of M.I.T. He wished to create an atmosphere conducive to worship and contemplation by all students.

Windows were excluded from the design because Mr. Saarinen felt the Chapel should be a sanctuary from the outside world. The shallow moat surrounding the building contributes further to this feeling of seclusion.

Instead of windows, there is a ceiling port through which a shaft light streams down upon the white marble pedestal. The brilliance of this light is enhanced by a screen, designed by the sculptor Harry Bertioia, of glittering gilt bits of metal brazed to vertical rods. These gilt reflectors are more dense in number toward the base, tending to keep attention focused on the pedestal. Additional light is admitted to the Chapel through horizontal panels of glass concealed behind oak wainscoting. Light reflected from the water in the moat passes through these panels and falls upon the walls in shimmering patterns.

The entrance to the Chapel, through a rectangular corridor with walls of gray stained glass, provides a transitional passage from the distractions of the outer world to the contemplative atmosphere of the sanctuary.

The Holtkamp organ, a Bach type, the gift of the late Redfield Proctor, is situated in a loft over the entrance of the Chapel. The serpentine form of the brick walls contributes to the excellent acoustics.

The aluminum bell tower was designed by the sculptor Theodore Roszak. The bell combines the Western (flared) and the Eastern (barrel-shaped) designs. Cast of traditional bell metal at M.I.T., it also contains a touch of silver; several students representing different faiths tossed coins into the melt.

RELIGIOUS COUNSELORS' CENTER

The Religious Counselors' Center at 317 Memorial Drive, housing the offices of the Institute chaplains, provides coordinated facilities for individual religious consultation and for student religious discussions and activities.

On the first floor of the newly renovated three-story building are the office of the chaplains' secretaries, a comfortably appointed reception room, and a small seminar room. A larger seminar room is located on the second floor. The chaplains occupy comfortable offices throughout the building, where students may confer with them in a quiet atmosphere.

CHRISTIAN SCIENCE ORGANIZATION

The Christian Science Organization at M.I.T. was formed in 1921 in accordance with the Manual of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. Its purpose is to encourage Christian Scientists on the M.I.T. campus in the study and application of their religion and to promote the growth of Christian ideals in the M.I.T. community.

Weekly meetings similar to the testimony meetings of Christian Science churches are held each Tuesday at 5:15 p.m. in the M.I.T. Chapel. These meetings give Christian Scientists on campus an opportunity to share the results of the application of the teachings of Christian Science to their everyday activities. During the fall semester there is a reception at which an experienced Christian Scientist is invited to speak.

A Cordial Welcome

There are two lectures on Christian Science each year, one in the fall term and another in the spring, to which the entire M.I.T. community is invited. Through these and its various other activities, the Organization provides excellent opportunity in preparation for future branch church membership.

HILLEL The M.I.T. Hillel Society, sponsored by the B'nai B'rith Hillel Foundations, strives to encourage Jewish students to live a meaningful Jewish life. There are opportunities for involvement in educational, religious, cultural, and social programs which allow one to express his own interests, convictions, and concerns. Among the goals of Hillel is the fullest spiritual and intellectual development of the individual. Understanding and appreciation of all aspects of Jewish life and thought are emphasized. Major consideration is given to the relationship of Jewish ethics, ideals, and values to modern life.

The Hillel members conceive, plan, and lead a variety of programs and activities: religious services, study groups, lectures, community service, and mixers and parties—encompassing all areas of student interest and thought. Those who so desire are enabled to observe Shabat and Kashrut and live according to their religious convictions.

Rabbi Herman Pollack, the Hillel director, plays a central role in the entire program as teacher, adviser, and friend. He helps students with personal problems, plans programs with students, and leads study groups. The Rabbi is in his office daily at 317 Memorial Drive, the religious counselors' building.

The Hillel educational program includes lectures by the faculty and Rabbi Pollack after Friday evening services, as well as student-led discussions; a series of evening lectures on Jewish history and philosophy; and study groups on such topics as Judaism and science, Talmud, contemporary Jewish thought, Hebrew, Yiddish, and any topic that students desire. Through the Morris Burg Memorial Lecture a leading Jewish scholar is invited to the campus each term to speak to the general community; past lecturers have included Nelson Glueck, Mordecai Kaplan, Abraham Heschel, Meyer Waxman and Gershom Scholem. The Hillel library, recently enriched by a collection of books that was part of the late Rabbi Joshua Loth Liebman's library made available by his wife, provides reference material for these and other programs. It also provides source material for individual study and term papers.

Services are held in the M.I.T. Chapel every Friday evening and Saturday morning, on the High Holy Days, and on all festivals. All of the services and Passover Sedarim are conducted by the students, thereby preparing them for leadership positions in the adult community.

Cultural programs are based on all phases of Jewish life: festivals, literature, music, and Jewish history and contemporary life in America and Israel. The Student Zionist Organization, associated with the Hillel Society, sponsors programs about Israel and Zionism and their impact on Jewish life in America.

Large fall and spring mixers and a mystery bus trip highlight the Hillel social calendar, which also includes dated parties and smaller social affairs with girls' schools in the area. The Shav'on, the weekly Hillel paper, carries announcements of all Hillel affairs and also the literary and philosophic efforts of members.

Thus, by establishing a complete range of activities and programs for students of varied backgrounds and interests, the Hillel Society attempts to broaden and deepen the student's understanding of his own traditions, the relation of Judaism to modern science, and the students' relation to society.

ORTHODOX CHRISTIAN FELLOWSHIP

The activities of the M.I.T. Orthodox Christian Fellowship include a weekly vesper service in the M.I.T. Chapel, monthly meetings with speakers, acquaintance dances, and various lectures and panel discussions; the group is very fortunate to have many fine Orthodox theologians and laymen in the area who have given very freely of their time.

What can the Orthodox Christian Fellowship do for its members? To begin with, the organization makes it possible for people who share the same religious belief to get to know each other. Each member is given the opportunity to gain greater insight into the Eastern Orthodox faith.

The social activities of the organization are designed to provide the student with a means of relaxation and entertainment throughout the academic year.

The degree of participation of each member in the activities is left entirely up to him. Everyone, from the new freshman to the experienced senior, is encouraged to assume

an office or some such responsible position in the organization. All those who have done so in the past have found it a very rewarding and satisfying experience.

The Orthodox chaplain is Rev. Arthur J. Metaxas, Saints Constantine and Helen Greek Orthodox Church, 14 Magazine Street, Cambridge. TRowbridge 6-9858.

PROTESTANT CHRISTIAN ASSOCIATION

The M.I.T. Protestant Christian Association brings together Christians and those who are interested in a serious consideration of the Christian faith and life. The members of the Christian Association clearly recognize that the prevailing vision of Christian discipleship is not at M.I.T.—as elsewhere—adequate for the age in which we live, that many have never been clearly confronted with the claims of historic Christian faith and have never committed ourselves personally to the life of Christian discipleship even though closely associated with the church throughout our lives. The Protestant Christian Association calls Christians to acknowledge and manifest the fundamental unity that lives behind the outward division of the church and to grapple honestly with the question of how to serve God within the life of the M.I.T. campus.

Central to the Protestant Christian Association program to meet the interests of the Christian community at M.I.T. is the corporate worship in the M.I.T. Chapel at 10:45 on Sunday mornings. This is preceded by the Sunday morning forum which meets over breakfast at 317 Memorial Drive. Wednesday mornings there is a Holy Communion service at 8 followed by a light breakfast at 317 Memorial Drive. A curriculum dealing with the relation of faith to life is followed by discussion in dormitory groups and in the residential center at 486 Beacon Street. On Friday afternoons the Friday Forums, held in one of the meeting rooms in the Institute, provide a place for discussion of topics of general interest led by people from the community as well as the Institute. A monthly newspaper is prepared by students and sent to Protestant students and faculty containing articles written by the students, faculty,

chaplains, and people from the community who are invited to contribute. To round out the program, seminars, retreats, lectures, and occasional social events such as the freshman breakfast and an annual mountain climb are planned with the chaplains of the Protestant Ministry.

The M.I.T. Protestant Christian Association is related to the World Student Christian Federation through the National Student Christian Federation in the U.S.A. It is also related to the New England Student Christian Ministry Movement and has the active support of the Protestant Ministry at M.I.T.

PROTESTANT MINISTRY

The Protestant Ministry at M.I.T. is sponsored by the denominations of the chaplains listed below and is devoted to a common goal—the creation of a live, wide-awake, and influential Christian community on the campus. Each of the Protestant Ministry chaplains maintains offices at 317 Memorial Drive. Here each is available for counsel and pastoral care; students are always welcome for conversations with the chaplains. The chaplains of the Protestant Ministry at M.I.T. are:

Baptist Chaplain, REV. DON IHDE, extension 2325

Episcopal Chaplain, REV. MYRON B. BLOY, JR., extension 2326

Lutheran Chaplain, REV. HENRY HORN, extension 2328

Methodist Chaplain, REV. JOHN A. RUSSELL, JR., extension 2327

Presbyterian and United Church of Christ (Congregational, Evangelical, and Reformed) Chaplain, REV. ROBERT C. HOLTZAPPLE, JR., extension 2983

Minister to Foreign Students, REV. REGINALD SMART, extension 2325

TECHNOLOGY CATHOLIC CLUB

The Technology Catholic Club, the Newman Club at M.I.T., is the organization of the Catholic community on campus. Its membership includes undergraduates as well as graduates, faculty members, secretaries, and staff. The Technology Catholic Club shares its educational and social program with the entire community at M.I.T.

The Catholic chaplain, Rev. Harry J. Dooley, C.S.P., a member of the Paulist Fathers, offers daily Mass at the M.I.T. Chapel and two Masses on Sundays. Confessions are heard every Friday in English and on Thursday in French, Spanish, and Italian as well as in English. The Dialogue Mass gives everyone the opportunity to participate actively in the Mass. Father Dooley's office is at 317 Memorial Drive, extension 2981. He is always available as a religious counselor, confessor, and friend. The religious program also includes a Mission on campus, a closed retreat, and a Communion breakfast.

The Catholic Club's educational program aims at providing a wide theological background for its participants. The

Technology Catholic Club sponsors speakers whose topics bring out the rich diversity of Catholic life and the many facets of Christian commitment. A class in philosophy is scheduled during the week. Every Catholic in the M.I.T. community receives *Challenge*, the Catholic Club's bulletin, which reminds members of future events.

A well-rounded life, at Tech as anywhere else, includes a social dimension. Weekly meetings offer an opportunity for Catholic students to meet each other. The Technology Catholic Club invites girls from local Newman Clubs to attend mixers, dances, parties, and picnics, which are held regularly throughout the year. Participation in the activities of the Boston Province of the National Newman Club Federation provides further opportunity to meet students from other schools. Everybody is always welcome at all activities.

UNITED CHRISTIAN FELLOWSHIP

The United Christian Fellowship is the M.I.T. chapter of the Inter-Varsity Christian Fellowship, an international, inter-denominational Christian student organization on college and university campuses. The United Christian Fellowship itself is completely student organized and led, although it does have faculty advisers. The purpose of the U.C.F. is threefold: (1) to witness the Lord Jesus Christ as God incarnate, and to seek to lead others to a personal faith in Him; (2) to deepen and strengthen the spiritual lives of its members by the study of the Bible, by prayer, and by Christian fellowship; and (3)

to stimulate interest in and actively support foreign and home missions, and to encourage personal participation in the work of the Church of Christ and other endeavors of Christian outreach.

In order to accomplish these varied purposes the United Christian Fellowship makes use of both informal times of fellowship among its members and planned meetings at regular intervals. These latter meetings include weekly Bible studies in each of the dormitories, weekly campus-wide meetings, and daily small-group prayer meetings. The Bible studies are student-led discussion groups. At them each person has the opportunity of discovering what Christianity teaches and its relevance to his own life as he examines the Book that is its basis. The campus-wide meetings are of many types, including among others those to which the U.C.F. invites outside speakers and those in which the students attending discuss matters relevant to their own Christian lives. The daily prayer "cell" meetings provide short periods of prayer and fellowship before the start of classes each day. The Fellowship also sponsors occasional socials and fields some intramural athletic teams. In addition, each term is highlighted by a conference held in conjunction with other Inter-Varsity chapters in the Boston area.

That Christianity has had an immense impact on the world, no one can deny. The U.C.F. believes that for this reason, if for no other, each person owes it to himself to make

a personal investigation of this historic faith. Therefore, all U.C.F. activities are open to anyone, regardless of his personal convictions.

**RELIGIOUS
SERVICES
AT M.I.T.**

Religious services of the Roman Catholic, Protestant, Jewish, Christian Science, Eastern Orthodox, and Vedanta faiths are held in the Chapel at least once a week. Consult the *Calendar of Events*, obtainable at the Information Office, for times.

THE TECH COOP

As a student at M.I.T., membership in The Tech Coop is important and will prove its value to you in many ways. Fundamentally, of course, The Tech Coop saves you money thru the Coop Patronage Refund . . . on the purchase of such student necessities as textbooks, stationery and room accessories, and too, on the purchase of every day requirements such as raincoats, sport coats, trousers, men's furnishings and sport supplies. Your membership-charge card allows you also to buy and get your Patronage Refund on purchases made at the Harvard Square Store where the selections are wider in some departments such as suits and topcoats. For the fiscal year ending June 30, 1964, a minimum Patronage Refund has been guaranteed at not less than 8% on charge purchases and 10% on cash.
