BOX 1 FOLDER 14

Accomplishments of M.I.T. Women, n.d.

AC298

Of the 500+ more names on our list two thirds are or have been  
teachers. From the Kindergarten to the University in nearly every state  
in the Union certainly from Maine to California. And they are leaders  
from Mrs Starnard in the kindergarten, Miss Gates in our interesting  
North End work, Miss Willey & Miss Torrey & scores of others  
in the elementary schools. <sup>Miss White, Miss Stebbins</sup> in the High school. <sup>Miss McLeod</sup>  
The special schools claim a large portion  
Gymnasiums, Domestic Science &c. The Normal schools claim  
a dozen perhaps. Preparatory schools Miss Capron of North  
Miss Kime of Wollaston Miss Wheeler at Mt Hermon  
teachers seem to men & boys. Miss Rice at Denver High  
gave assaying to the girls. Mining Engineering

In higher education we have <sup>in</sup> Simmons College

Wellsley has had ~~two~~ or three or four heads of depts.  
& many assistants

and in Columbia University Miss Matthey holds  
a chair of Physics -

at Smith Miss Eliz. Mason gives much valuable

Prof. Geology 1  
 associated in 1

If we were talking about firsts & moats.

Highest percentage who have made a name for themselves  
 & have helped on the world's work. The earlier students filled a decided  
 need for science teachers to fit students for technology & other science  
 schools. Before the colleges had good courses in Chemistry or Biology  
 or Physics the Institute was the only place where they could  
 find teachers. <sup>that need has largely passed & now the need is for</sup> ~~architects~~ <sup>sanitation</sup> ~~general~~ <sup>general</sup> ~~science~~ <sup>science</sup> training & for research

But it is perhaps as wives & mothers that their greatest glory lies. They have proved as no other college could better do that the most severe training did not make them repulsive nor unfit them for housewifely duties.

a larger proportion of the graduates have married than any other of our a.c.a colleges can show
