

10 MC 0181: [Letter, Ellen Swallow Richards to Ethel Fifield Brooks]

approximately 1910 or 1911

BOX 1 FOLDER 10

1910 or 11

Dear Mrs Brooks,

So it was you. Augusta did not get the name straight and I had no idea whom I had missed. Indeed I do hope I shall know long enough beforehand to plan to be at home next time.

You are very good to read over the manuscript for me. I shall send it on ~~Monday~~ it may not reach you until Tuesday morning <sup>g</sup>

I shall mark it with a price and the expressman will want a receipt so if you are out ~~Monday~~ afternoon on Tuesday morning please leave word.

I wish you to send it right on ~~the~~ Wiley and not return it to me. Corrections of figures you can make and omissions and additions and doubtful points you can note on separate

rate sheets <sup>send to me</sup> for me to see <sup>to</sup> in proof. I want to get this into the printers hands as soon as possible. He has the plates in hand <sup>already</sup>.

I do not expect this to be perfect but the second edition can be improved. I do not wish to go into detail at this date too many uncertainties as to tendencies. This is "Euthenics"

<sup>architecture</sup> not ~~Architecture~~ Placid paper, I see no objection to your using

it if you say read at L.P. but it would suit your paper better if you made certain changes in parts so as to make <sup>practically</sup> a new paper.

that would not be difficult. and then in the body of the paper to say "as stated in my L.P. paper."

Yes take some course at Teachers College so as to keep in touch with them. I want you to give a course there by and by

As to Tech we are very happy over the Supreme Court decision that we cannot sell. That is generally supposed to be the final blow but we are not to be caught napping again and so the League is all right. Stick to Tech. Love to you both.

Ellen H. Richards
