

Landmarks by memory:

12/18/54

1. City Hall to Old North Church.

City Hall to Tremont to Scollay Sq - downhill (to R.) fm Scollay Sq to Faneuil - then follow retail markets & cleared land & go under expressway to inlet other side, thence right to mouth of Hanover (restaurant w/ trellised vines) - up Hanover to paved park, & through this to the church.

Most difficult section is the connection:

Scollay Sq. to mouth Hanover. Little sense of general direction, but of point-to-point connection.

2. Custom House to Music Oval:

Work up from tower (away from ocean) through regular network, following general direction & increase of ^{repair} shopping. Will hit Washington, thence left to park (Fisher's & crowd), & up park (toward trees) to Common. Strike diagonally through Common, & tho slightly misleading, go till hit corner Beacon & Charles (Public Garden & slopes). Diagonally across, & by nearest short streets away from gradient boundaries to Storrow drive. Thence by eye to crossover & by eye to oval, which in bend of river & downstream fm. boat landing.

This a particularly difficult trip: had to be constructed piecemeal from both ends.

3. Circle @ Cas R Dam to So Station:

Follow in to No Station, turn left under elevated & continue on, bearing to right on Commercial & then Atlantic around water's edge & by gft. warehouses etc. This leads to So Sta square.

4. Park Sq. Bus Terminal to Haymarket Circle.

Out fr. Park Sq. to Baylston one block away, down Baylston to Tremont & thence to Scollay. By same route as #1, except that continuing from minor markets swinging to left, instead of going under expressway to Hanover. This swing carries into Haymarket. (There may be a more direct connection here). Same difficulty as #1.

5. El Sta Dover & Washington to State House.

Would follow Washington in ^{because of} (name only), thence over Park to Common, & by the dome to State House.
