

RBG Jan 7

Dover →

(street signs)

1. Up Wash to Slawmunt or Bway, in that to Pls Sq, & across Common. ~~Not~~ Not fam. in Dover up Wash is right genl direction. Come along end of sq. @ Tremont, to Pls Sq & bus terminals, & then to Common @ Berkeley gap.
2. Run alley, & then little off Ct. St. betw Patton's & Wash St into N side Park Sq, along base in front of Coop Morse to Hanover - out latter under vent art., ~~then~~ then to Prado & then base. Vpt to N. Astory, am perfectly @ home. Name of streets, etc.
3. C.H.T. → up State & Ct. St part Old St to Seolay Sq - duck into Pemberton, not knowing what ^{matter of course} then under Ct. Hse. Run Ashburton, under arch St Hse, & down Mt Vernon St. (Took time to think wh. way ^{for} a comparison betw. this & Beacon St)
4. Pls Sq → (wld stall off w/o clear pattern, & make small decisions) - go out thru Pls Sq to corner Common - across to State Hse - thru it & down Bowdoin - @ bot left off garage, turn it down Cardon post Tel & Welfare Bldg. @ this end, wld have to look around, prob. ahead & to it.

Domest of it by going by direction & details
on ground. Has detailed knowledge
C.B.P. ^{# Boston Bay} across N & S ends.

5. Gas River → thru Leverett, hope to get onto
Cambridge in Otis Hse. Go up thru Scollay
& down Court St. to to End Old State Hse. On
Devonshire past P.O., & go [#] L & R & go down
Federal St. (doesn't visualize Leverett St.).
(Worked in PO Square).

In genl desc. - says always confused in Common,
cannot visualize path to take but confident
would find way thru, to hall & bandstand get
in way. Prob. uses sight of State Hse. Likewise can-
not visualize Ph St. station to Commonwealth.
Does not use tower landmarks, since has whole
series detailed clues on every street. But if had
to find way from Franklin Sq Hse to MIT, would ex-
perience a definite break in two unrelated
systems.
Note that may have directed himself so as to
avoid Scollay.
