Massachusetts Institute of Technology
Lexington 73, Massachusetts

SUBJECT: TIME SCHEDULE FOR XD-1 MACHINE SPECIFICATIONS AND
EVALUATION REPORTS

To: Jay W. Forrester

From: W. J. Canty

Date: February 7, 1955

Approved: 
J. A. O'Brien

The nature and purpose of evaluation tests to be performed on XD-1 and its associated equipment has been outlined in "XD-1 Test Specifications" Memorandum 6M-3271, by J. A. O'Brien, 10 January 1955.

Figure 1 is a time schedule for these machine evaluation tests. It covers:

- a) The time necessary for study of the equipment to be tested and writing of test specifications.
- b) A review of the test specifications to take place immediately before the test period to increase, if possible, their effectiveness.
- c) The time required for machine evaluation, that is, the study of machine logs, running of specified tests and a writing of the evaluation reports.
