General Information Jesus Blessing the Children.

To keep the cost down to \$3000, keep much of the fields in quite simple leaded pattern; similar to the treatment in Laconia, or First Congregational Church, Reading, although the latter is somewhat more elaborate.

Dr. Jarvis suggested variations in the two side windows, possibly different medallion shapes, and the two lower medallions make an arc. He thought the anchor might be larger, or possibly change it to some other symbol. (left 3 or 4 of the Moscow color plates with him). 4/24/56.

To be made by someone else.
