General Information This window to be devoted to Christ in Gethsemane, similar to the one in the south aisle in Christ Church, San Antonio - see color plate.

Also see photographs of other windows in place.

The donors "favor the ruby reds and less blue."

Herewith, we are sending the color sketch for the Berbes window devoted to the theme of Our Lord in the Garden of Gethsemane. It is very rough, but you can readily visualize how beautifully it will work out in the exquisite detail of line and form to be developed in the full size drawing and the actual glass.

Christ kneels before the vision of the Cup. Above is the lantern showing the way to the Garden. Below is the cock recalling Saint Peter's denials.

At the base are the nails, and through the foliated border small crosses at intervals foreshadow the approaching Crucifixion.

With the donor's preferences in mind, we have emphasized the ruby reds keeping the blues to a minimum.
