General Information awaiting reply to letter of Jan 4 1963

Mrs. Manchester writes: "The narthex extends beyond the church proper with clear glass windows separating the two. I am waiting on our previous ideas for these eight narthex windows because after looking at this wall from the Sanctuary, I believe both the panels and the narthex windows should be considered at the same time. It has been suggested we try to work out the Lord's Supper, Crucifixion or a rose window, so I am sure the narthex windows would have to serve as a border or be very simple in design..."

Layout made for pair. Awaiting further word.
